

Upcoming Construction

The project team will be returning to the site to complete additional sewer improvement work in Greenfield Park. Construction crews and equipment are expected to begin arriving at the site the week of **May 7th**. They will start by excavating a temporary conveyance pumping pit and installing the temporary conveyance piping above ground. Work is anticipated to be complete by August 2018. During this time, the trail through the park will be closed.

While we do our best to minimize impacts during construction, some temporary inconveniences such as odors, noise, and vibrations may occur as this work takes place.

Thank you for your patience and cooperation during construction while we made these important sewer improvements in your area.

Safety

Please also keep your distance from any materials and equipment – only authorized personnel are permitted in our work areas. We want you and our crews to stay safe during construction.

Who Should You Contact?
