

# Mounds View Area Regional Sewer Improvements – Hillview Rd.

## AUGUST 17, 2018 CONSTRUCTION UPDATE

(dates are approximate and dependent on weather/construction conditions)

### Construction Update

The project team has completed the work inside the meter station and the temporary conveyance has been removed from the site. Check out the photo of the completed meter station!

Over the next few months, crews will begin restoring the area. We anticipate final seeding will take place in late August, weather permitting. All restoration will be complete by mid-October.

**Thank you for your patience and cooperation during construction while we made these important sewer improvements in your area.**

### Safety

Please also keep your distance from any materials and equipment – only authorized personnel are permitted in our work areas. We want you and our crews to stay safe during construction.

### STAY INFORMED:

For project information, to sign up for project e-mail or text updates, or to view past updates, visit the project website at [metro council.org/sewerconstruction/moundsview](http://metro council.org/sewerconstruction/moundsview).
