

Amalgam Separator Inspection/Service/Repair Log

Dental Office Name & Location _____

Date	Office Staff or Dental Supply Co.	Action/Activity (see examples, below)	Follow-up actions needed	Date follow-up actions completed

Instructions for entering information into the log:

Staff/Dental Supply Company: Note staff person's name or name of dental supply company servicing the separator.

Action/Activity Examples: Routine inspection, change cartridge/filter, ship full cartridge/filter, or repair separator.

Note: If the amalgam separator is replaced with a new amalgam separator, log the date/make/model/serial number. The serial number should be for the amalgam separator itself, i.e., the main unit, not the cartridge serial number.

When installing a new amalgam separator, it must be an approved model and listed on MPCA's website.
