

Metropolitan Council Liquid Waste Receiving Facilities

Metropolitan Council maintains the Liquid Waste Receiving (LWR) facilities listed below. All hauled liquid waste to be disposed of into the Metropolitan Disposal System (MDS) must be discharged at one of these facilities. The facility information is listed in the table below along with the types of waste accepted at each facility. Before a hauler can discharge liquid waste to the MDS, the hauler must first obtain a permit from the Met Council's Industrial Waste and Pollution Prevention section.
