Framework for Local Planning

- Regional plans set the broad context
- Council roles & Community roles
- Expectations for supporting forecasted growth
- Expectations for planning/support regional infrastructure and connections with local infrastructure

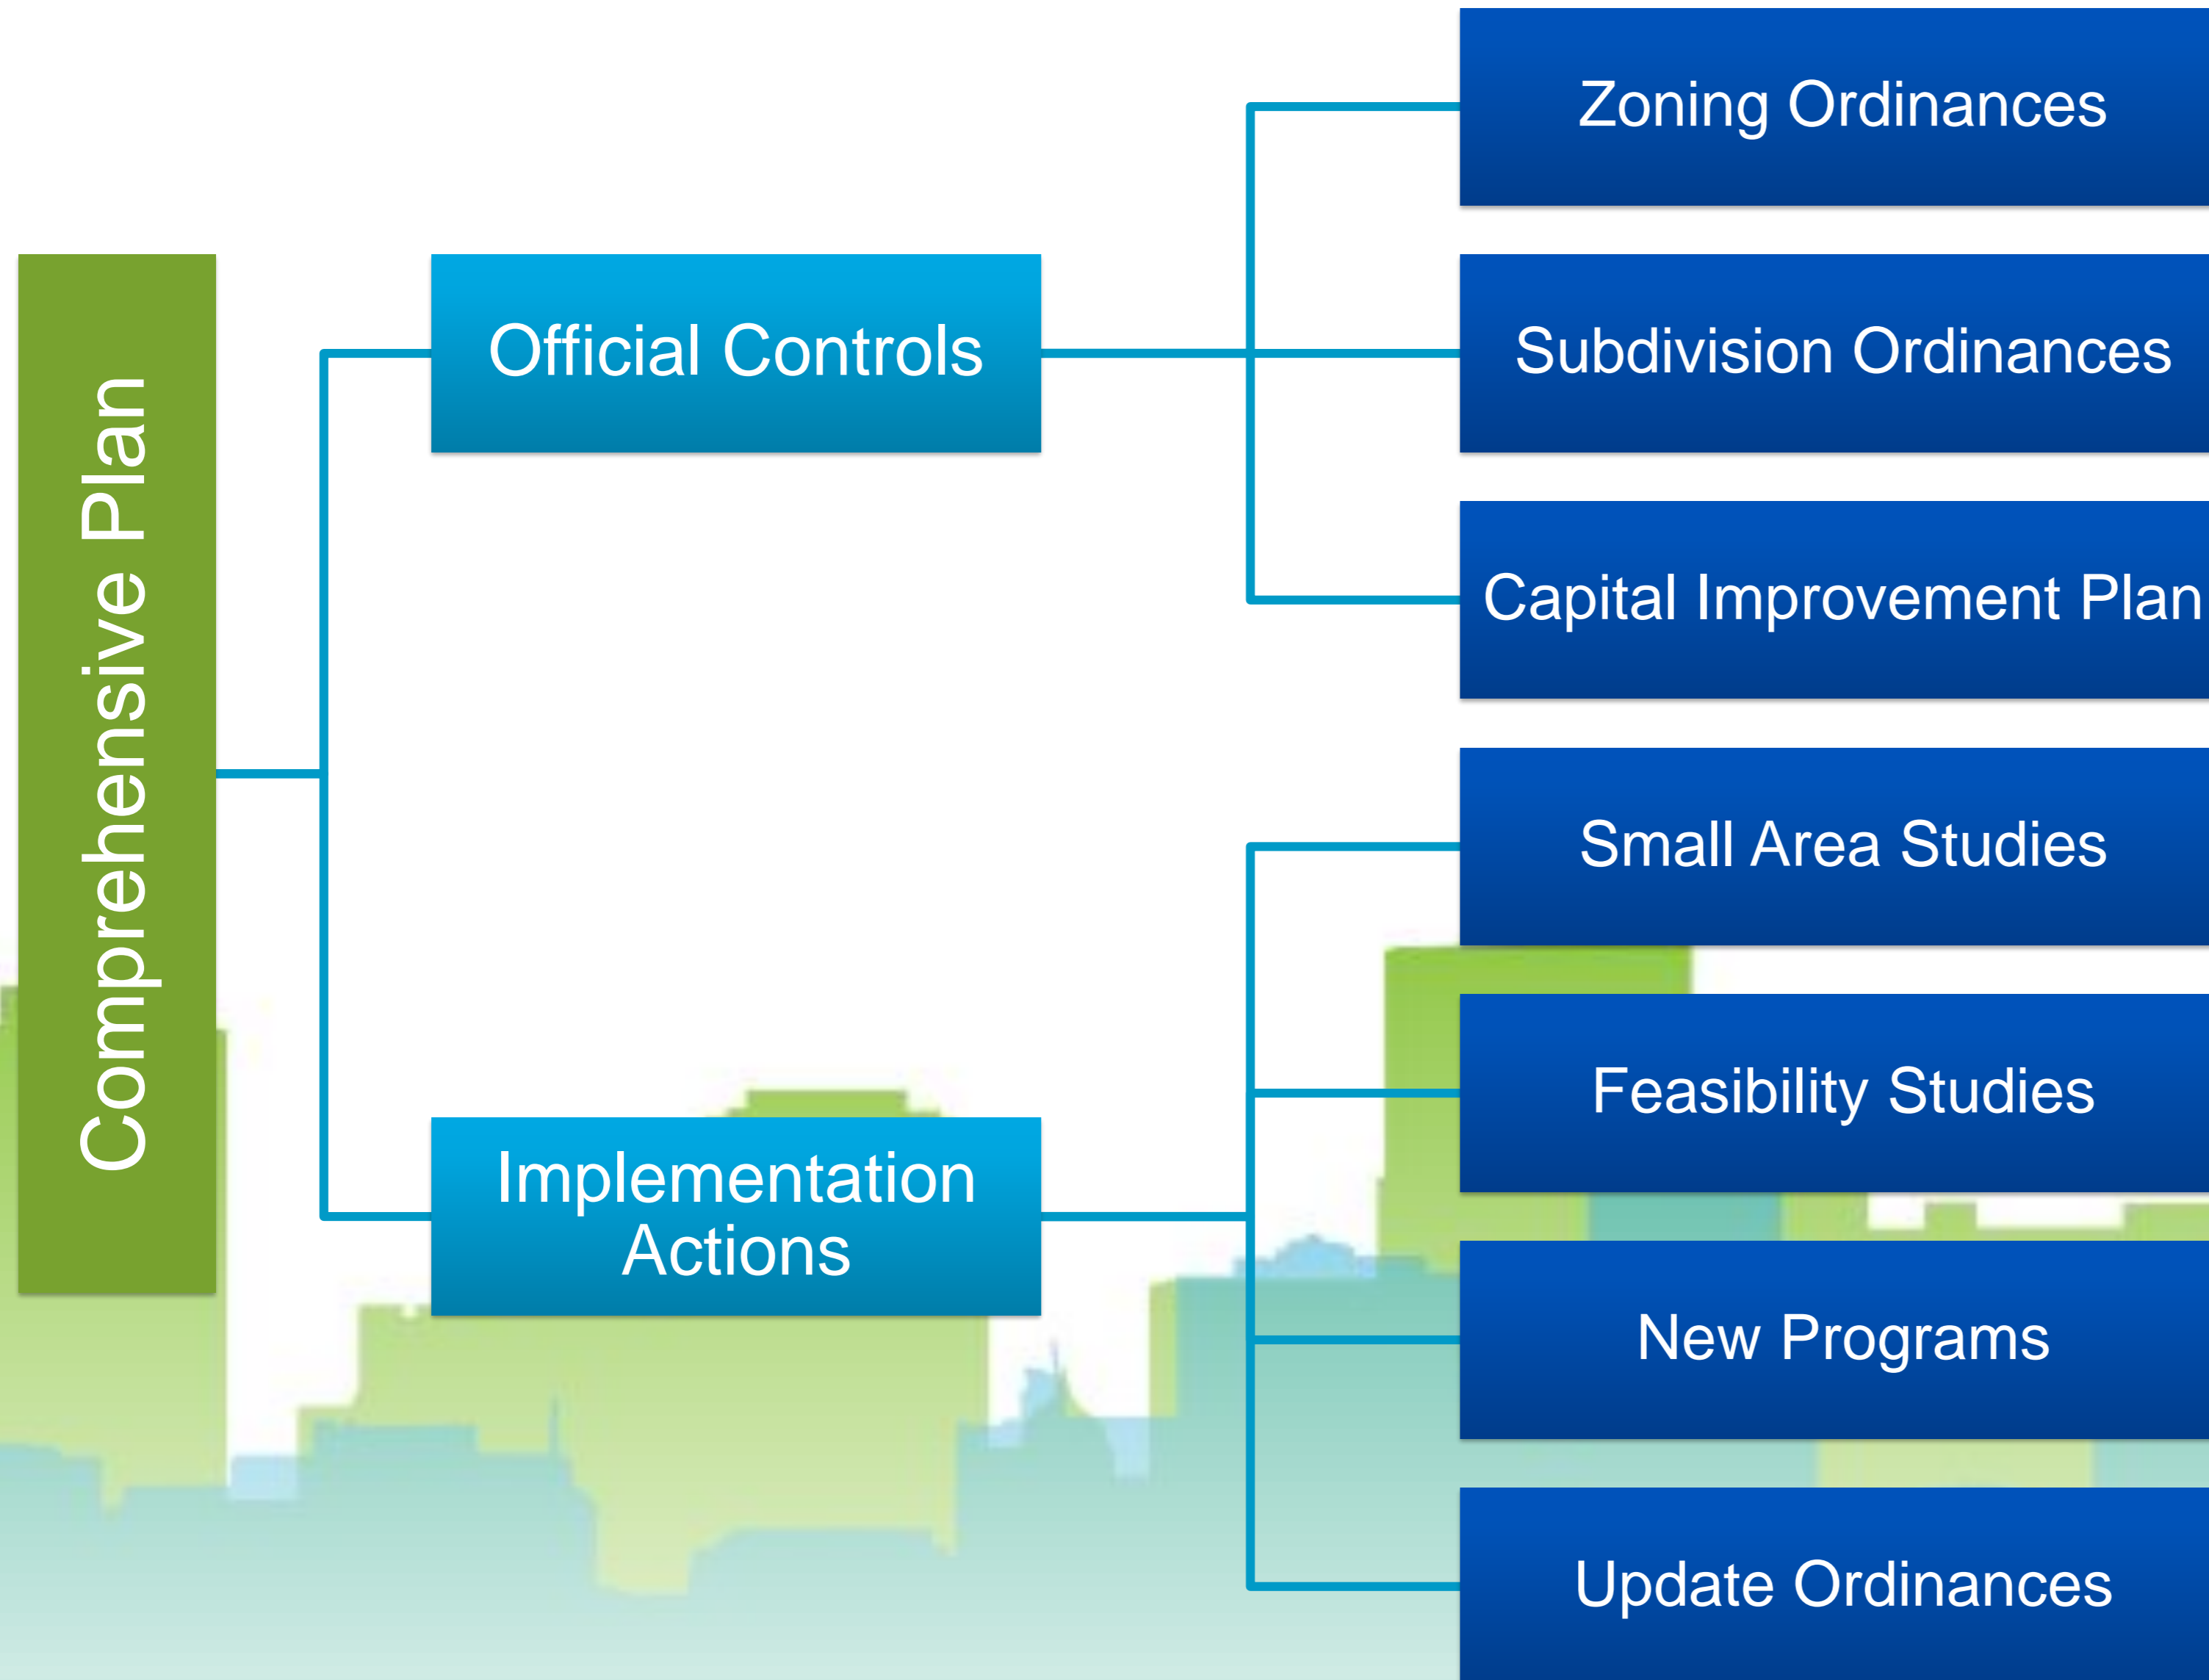

Local community plans matter

- Community's vision
- Guides growth and development in community
- IDs key issues in community & how the community intends to deal with them
- Provides:
 - Basis for community's vision and principles
 - Reasoning for public facilities plans/budgets
 - Guidance on making decisions

What is the role of the plan?

- Legal document
- Outlines your community's work plan
- Provides direction for ordinances and capital investments

Council's Role

Regional Planning

- Overall Regional Development
- Transportation & Transit
- Regional Parks/Trails
- Wastewater
- Water Supply

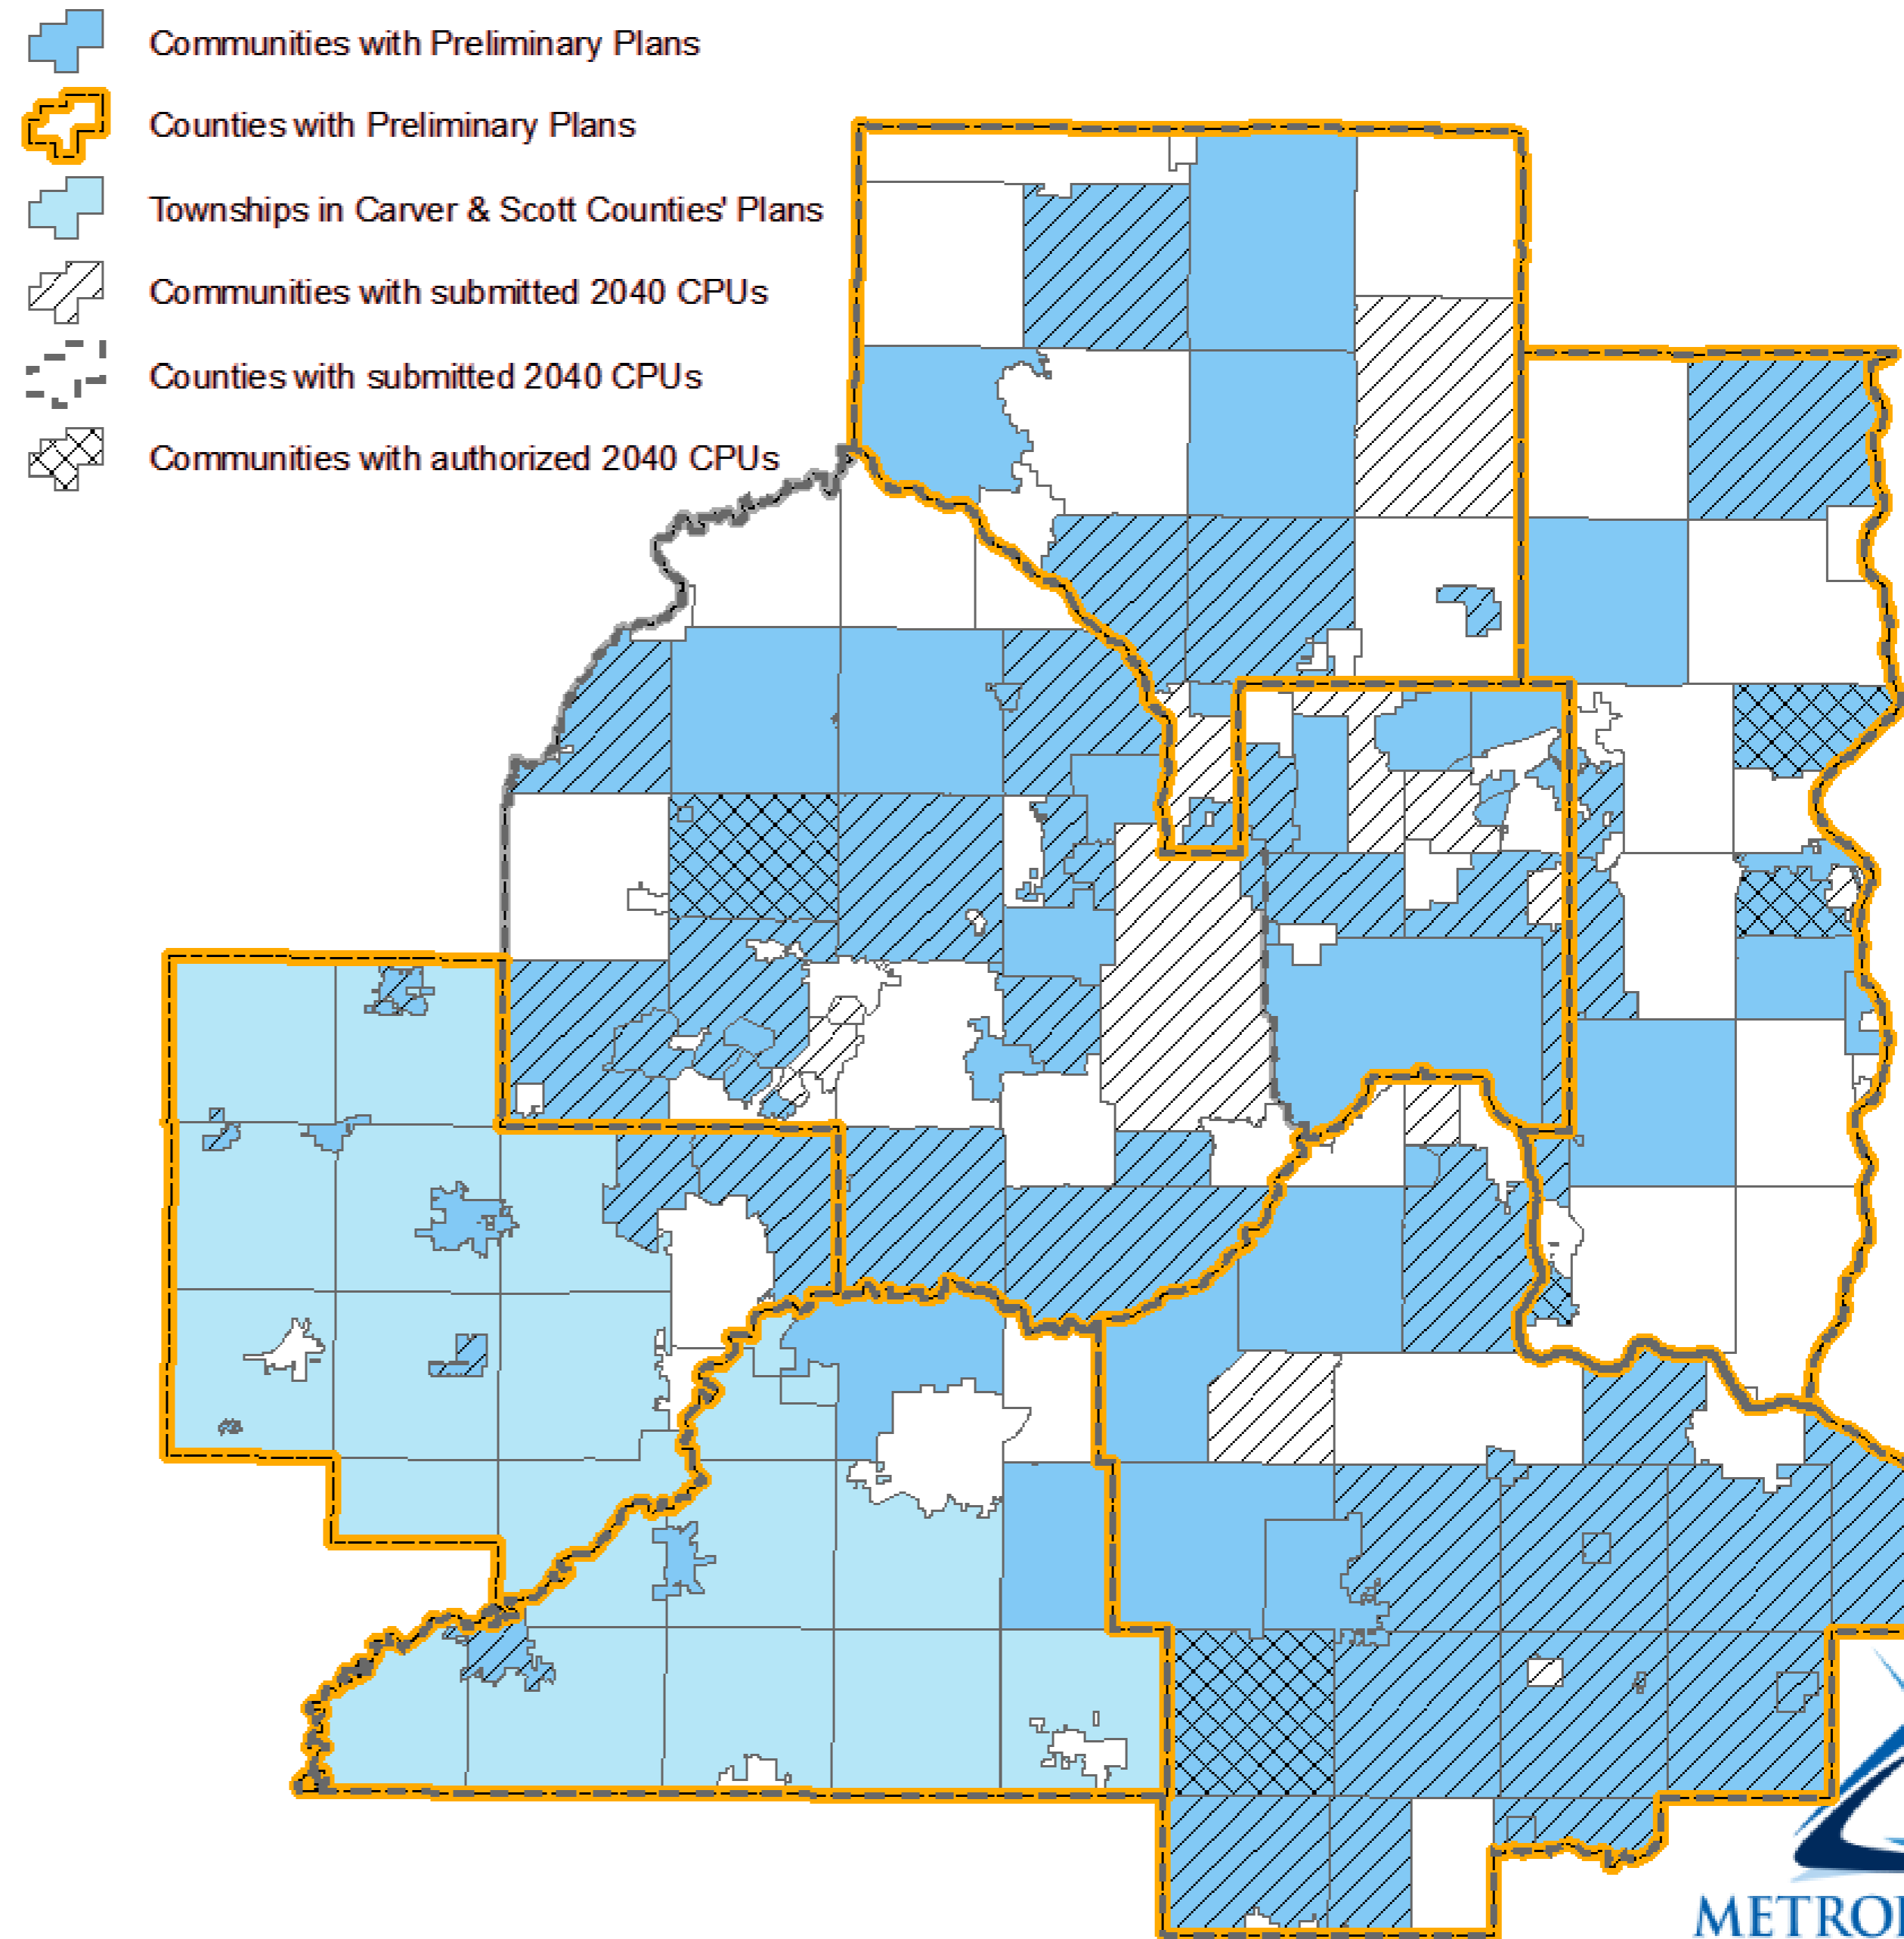

Authorize Local Plans

- Review and comment
- Approve Comprehensive Sewer Plans
- Require modifications in cases of a system impact

What do we do after Plan Review?

- Comp plan composite
- Analyze the plans:
 - Common themes
 - Success stories
 - Identify new/emerging issues/trends
 - Identify stumbling blocks/hurdles
- Prep for the next round of policy development
 - Work plans identified in the policy plans
 - Explore new/emerging issues/trends

Opportunities for engagement

- Ground-truth our work
- Help shape our research agenda
 - Are we covering the breadth of issues? Are we missing an issue?
 - Are we asking the right questions?
 - What else should we be investigating?
 - What are our region's choices in addressing those issues?
- This work sets the stage for future policy development discussions
