Introduction

The Metropolitan Council (Council) administers a variety of funding sources and grant programs for the betterment of the Regional Parks and Trails System. These funds are granted to the 10 Regional Park implementing agencies (Agencies) or other recipients as directed by the Minnesota Legislature. Legal requirements for these programs vary, and the Council is responsible for ensuring compliance with all relevant requirements.

Purpose

This guide provides an overview of the administrative processes related to applying for and managing state funds and regional park bond funds administered by the Council.

Definitions

Agency Shares Calculator: Council spreadsheet using formula-driven inputs to calculate each implementing agency's allocation of various funds, consisting of; Operation and Maintenance (O&M), Parks and Trails Legacy Fund (PTLF) and bonding.

Agreement and Restrictive Covenant: Legally recorded document imposing a restriction on the use of land.

Application: A project request submitted into the Council's grant management system which may be specific to a grant program, request for proposal, or notice of funding availability.

Appropriation: A sum of money devoted to a special purpose and apportioned to the Council by the Minnesota Legislature.

Authorized Representative: The person or position designated by the grantee as the point of contact for a particular grant. It is recommended to be a staff person, not an elected or appointed official.

Capital Asset: Tangible or intangible assets used in operation having a useful life of more than one year and are capitalized in accordance with generally accepted accounting principles. Capital assets include: (a) land, buildings (facilities), equipment, and intellectual property (including software) whether acquired by purchase, construction, manufacture, lease-purchase, exchange, or through capital leases; and (b) additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations, or alterations to capital assets that materially increase their value or useful life (not ordinary repairs and maintenance).

Capital Expenditure: Money spent to acquire a capital asset or make improvements to a capital asset that increases its value and extends useful life (2 Code of Federal Regulations, section 200.13).

Cash Flow Report: Report due from grantees forecasting grant expenditures over a specified time period.

Certified Closeout Form: A form signed by the grantee's chief financial officer or finance manager certifying the total amount and proper expenditure of grant funds. The form is submitted with grant closeout documentation.

Closeout: The procedure initiated by a grantee to finalize a grant agreement, which generally includes submitting a Certified Closeout Form. Closeout also includes the Council's review of final project information.

Conflict of Interest: An actual, potential, or perceived conflict of interest occurs when a person has actual or apparent duty or loyalty to more than one organization and the competing duties or loyalties may impair impartiality to one or both parties. A conflict of interest may exist even if no unethical, improper, or illegal act results.

Contract: An agreement to provide a good or service that legally binds two or more parties.

Contractor: An organization or a person who is not a grantee employee that enters into a contract with a grantee to provide goods or services.

Declaration: Legally recorded document stating that a real property is subject to certain restrictions and encumbrances, such as restrictions on its sale or disposal.

Eligible Expense: A cost allowed to be charged to a grant.

Effective Date: The date an agreement begins, as stated in the agreement.

Environment and Natural Resources Trust Fund: The Environment and Natural Resources Trust Fund (ENRTF) is a state fund derived from Minnesota State Lottery revenue used for the public purpose of protection, conservation, preservation, and enhancement of the state's air, water, land, fish, wildlife, and other natural resources. The Trust Fund is administered by the Legislative-Citizen Commission on Minnesota Resources (LCCMR).

Equipment: Property that has a useful life expectancy of more than one year and is not expected to be significantly depleted in use.

Equity Toolkit: Set of questions and a process to clarify how regional parks and trails projects are advancing equity.

Executed Date: The date of the final signature by all parties on an agreement.

Executed Grant Agreement: A grant agreement that has been signed and dated by all parties.

Expiration Date: The end date stated in the grant agreement or the date when all obligations have been satisfactorily fulfilled, whichever comes first.

Financial Reconciliation: A process that ensures a grantee's reported expenditures for a given period are consistent with supporting documentation, such as purchase orders, receipts, invoices, and payroll records.

Fiscal Agent: A person authorized to manage the fiscal matters on behalf of another party.

Grant Administration: Activities such as grant tracking, grant agreement management, reporting and program management, or oversight of activities.

Grant Agreement: A written or electronic document defining a legal relationship between the Council and a grantee when the principal purpose of the relationship is to transfer cash or something of value to the recipient to support a public purpose authorized by law.

Grant Agreement Amendment: An addition, deletion, or change to a fully executed grant agreement.

Grant Budget: A plan for all income and expenses for the project funded by the grant. Grant budgets typically include construction cost, internal professional services, and external professional services.

Grant Period: The time period between the executed date and expiration date of a grant agreement.

Grantee or Grant Recipient: The party responsible for implementing the terms of the grant agreement with the Council.

Ineligible Expense: A cost that is not allowed for reimbursement with grant funds.

Legislative-Citizen Commission on Minnesota Resources: The Legislative-Citizen Commission on Minnesota Resources (LCCMR) is made up of 17 members: five Senators, five Representatives, five citizens appointed by the governor, one citizen appointed by the Minnesota Senate, and one citizen appointed by the Minnesota House. The function of the LCCMR is to make funding recommendations to the Legislature for special environmental and natural resource projects, primarily from the Environment and Natural Resources Trust Fund.

Legislative Coordinating Commission: The Legislative Coordinating Commission (LCC) coordinates the legislative activities of the Minnesota Senate and House of Representatives. The LCC maintains Minnesota's Legacy website, which displays how funds from the following are being used throughout the state: Arts and Cultural Heritage Fund, Outdoor Heritage Fund, Clean Water Fund, Parks and Trails Fund, and Environment and Natural Resources Trust Fund.

Long-Range Plan: A long-term planning document, revised and updated over time, that provides a development concept, park or trail boundaries, an estimate of costs, as well as other elements.

Match: Services, materials, or cash contributed to supplement other funding sources to accomplish grant objectives. Specific programs may have limitations on what may be used as match.

Measurable Outcomes: A clearly defined metric of verifiable project deliverables, such as miles of trail completed, number of program attendees, acres of land acquired.

Metropolitan Parks and Open Space Commission: The Metropolitan Parks and Open Space Commission (MPOSC) advises the Council on development of the long-range plan for the Regional Parks and Trails System and on acquisition and development programs, including priorities for funding. MPOSC works in coordination with the 10 regional park implementing agencies.

Minnesota Management and Budget: Minnesota Management and Budget (MMB) is the state agency responsible for the financial management of Minnesota state government, including accounting, budgeting, economic and fiscal forecasting, debt management, compensation, and employee relations.

Monitoring: A procedure of reviewing and documenting progress of grant agreement implementation and compliance with grant agreement provisions.

Monitoring Visit: A visit involving both Council staff and the grantee representatives that occurs during the grant period. The purpose of grant monitoring visits is to review and ensure progress toward the grant's goals, address any problems or issues before the end of the grant period, and build rapport between the Council and the grantee.

Post-Award: The time period during implementation of the grant, reporting progress, reviewing, and processing reimbursement requests and completing closeout requirements.

Pre-Award: The time period consisting of the beginning of the grant lifecycle, which includes announcing opportunities, submitting applications, and reviewing applications.

Predesign: A written plan for the capital project that is completed prior to designing and constructing the project. It should include information regarding the need for the project, its architectural program, project budget, and time constraints that affect the project. It should also include information on staffing and operating budget for the facility.

Prevailing Wage: The minimum hourly wage, plus benefits, that employers must pay certain workers who work on construction projects funded at least in part by state dollars, as set by the Minnesota Department of Labor and Industry. Questions about applying prevailing wage rates should be directed to the Department of Labor and Industry.

Progress Report: A summary of grant activities and outcomes for a given period. A progress report may have narrative, data, and/or financial elements.

Project Activity Period: Time period during which expenses incurred are eligible for reimbursement.

Regional Park Implementing Agencies: [Minnesota Statutes, section 473.351](#), subdivision 1(a) defines the regional park implementing agencies as follows: the counties of Anoka, Carver, Dakota, Ramsey, Scott, and Washington; the Cities of Bloomington and Saint Paul; the Minneapolis Park and Recreation Board; and Three Rivers Park District.

Regional Parks and Trails Policy Plan: Document that puts forward policy direction to ensure the fulfillment of outdoor recreation benefits for all residents of the metropolitan region, now and into the future.

Regional Parks and Trails System: The nationally renowned collection of regional parks, regional trails, and special recreation features across the seven-county Twin Cities metropolitan area.

Risk: The possibility that an event will occur that adversely affects the achievement of objectives.

Risk Assessment: Evaluation of a grant recipient's risk of noncompliance with statutes, rules, grant agreements, and policies to determine appropriate monitoring and reconciliation procedures.

Small Disadvantaged Business Report: Report on proactive steps, if any, taken by grantees and their contractors to hire Small Disadvantaged Businesses (SDB) to complete grant projects and whether the grantee set a goal to hire SDBs and the result.

State Jobs Report: Report from the grantee to the Minnesota Department of Management and Budget identifying the number of jobs created or retained by the grant project.

WebGrants: The Council's web-based grant management system used for grant administration, applications, payment requests, and reporting.

Organization of the Council

The Council provides essential services and infrastructure through its divisions: Metro Transit, Metropolitan Transportation Services, Community Development and Environmental Services.

Community Development Division

The Community Development Division is responsible for the Council's regional growth strategy, planning and technical assistance to local communities, and for planning and funding regional parks and open space. Several departments within Community Development support the Regional Parks and Open Space System. These include the Regional Parks Unit, the Research Unit, and the Finance and Administration Department.

Regional Parks Unit

The Regional Parks Unit works closely with the Agencies and other partners to plan, fund, and support the operation and development of the Regional Parks and Trails System. The unit leads the grant solicitation and award processes and provides program guidance and review for amendments to project scopes.

Research Unit

Research collects, analyzes, and provides data about the region, forecasts regional growth trends, and analyzes other regional trends. This unit is responsible for conducting Regional Parks and Trails visitor studies, annual use estimates, and collecting population estimates that help calculate the shares of funds among all Agencies.

Finance and Administration Department

Finance and Administration is responsible for establishing and maintaining a formal communications process with Regional Parks and Trails grantees and ensuring the efficient financial and technical management of grants. The department provides guidance to grant program managers, processes grant awards for execution, and leads post-award processes, including reporting, payments, amendments, risk assessments, monitoring, and closeout procedures.

Roles and Responsibilities

Regional Parks Unit

Parks Planning Team: The Parks Planning Team reviews regional parks and trails long-range plans to ensure that all projects proposed for funding are included in a Council-approved long-range plan.

Parks Planner: The Parks Planner administers all pre-award processes for grant programs supporting the Regional Parks and Trails System: The Park Acquisition Opportunity Fund, Regional Parks Bonding Program, Parks and Trails Legacy Fund, and the Equity Grant Program. The Parks Planner also coordinates and monitors the requests for Regional Parks and Trails Systems funding from the Environment and Natural Resources Trust Fund.

Regional Parks Manager: The Regional Parks Manager oversees the implementation of the Regional Parks and Trails System program. The manager oversees development and updating of the Regional Parks Policy Plan, which guides decisions of the Agencies. The manager also provides staff support to the Metropolitan Parks and Open Space Commission.

Finance and Administration Department

Grant Administrator: The Grant Administrator administers all post-award processes for grant programs supporting the Regional Parks and Trails System: Park Acquisition Opportunity Fund, Regional Parks Bonding Program, Parks and Trails Legacy Fund, Equity Grant Program, Operation and Maintenance Funding, and legislatively directed pass-through grants. The Grant Administrator drafts grant agreements and amendments that ensure grant compliance and carries out grant monitoring, including desk reviews, semi-annual reporting, risk assessments and site visits.

Grants Manager: The Grants Manager oversees grant monitoring activities and ensures appropriate controls are in place to comply with state and Council laws, regulations, and policies.

Finance Analyst: Council finance staff support Regional Parks and Trails grant programs by maintaining the Shares Calculator, developing budget amendments, leading financial forecasting, and reporting to the state, and providing individual financial reports to grant stakeholders.

Grantee

Authorized Representative: The Authorized Representative is the designated representative of the grantee organization in matters related to the award and administration of its grants. This person certifies that the organization will comply with all applicable conditions referenced in the grant agreements. The Authorized Representative further certifies that their organization will be accountable both for the appropriate use of funds awarded and for the performance of the grant-supported project or activities funded by from the award.

Project Manager: The Project Manager is designated by the grantee organization to have the appropriate level of authority and responsibility to direct the project or program supported by the award. The grantee organization may designate more than one person to serve as Project Managers if they share the authority and responsibility for leading and directing the project. Each Project Manager is responsible and accountable to the grantee organization for the proper conduct of the project or program, including the submission of all required reports.

Other staff: As determined by each individual Agency.

General Timeline

General Timeline				
Item	January-June		July-December	
Administrative Activity Timeline				
Agency Shares	February Forecast update sent to Agencies		- Final Shares sent to Agencies - November Forecast update sent to Agencies	
Monitoring (risk assessments, site visits, closeout)	Ongoing – coordinated between Grant Administrator and Agency staff		Ongoing – coordinated between Grant Administrator and Agency staff	
Reporting	Semi-annual reports and cashflow projections due for open grants. Final reports are due at end of grant term or 90 days from project completion, whichever occurs first		Semi-annual reports and cashflow projections due for open grants. Final reports due at end of grant term or 90 days from project completion, whichever occurs first	
Programmatic Timeline				
Operation & Maintenance	- Council sends forms for acreage and O&M expenses to Agencies - Agencies submit forms and O&M documentation due		- O&M allocations finalized - O&M Grant Agreements sent for execution every other biennium (multi-year agreements)	
Parks Acquisition Opportunity Fund	- Finalize parcel list for ENRTF acquisitions with Agencies - Funds distributed first-come first-served - Grant agreements distributed		- New appropriations adopted into Council Budget - Funds distributed first-come first-served - Grant agreements distributed	
Competitive Equity Grant Program	- Timeline dependent on available funds and grantee capacity – approximately 1 year from NOFA Development to Agreement Execution - Notice of Funding Availability released to agencies, Application Period Opens, Scoring and Review of Submitted Applications, Grants Awarded			
	Even Years	Odd Years	Even Years	Odd Years
Parks and Trails Legacy Fund	Applications officially submitted into WebGrants to reflect final funding allocations	Applications officially submitted into WebGrants to reflect final funding allocations	- Estimated appropriation shared with Agencies - Proposed project list due (Aug.-Sept.) - Proposed project list reviewed for eligibility - New appropriations adopted into Council Budget - Grant agreements distributed	- New appropriations adopted into Council Budget - Grant agreements distributed
Bonding	Applications officially submitted into WebGrants to reflect final funding allocations		- New appropriations adopted into Council Budget - Grant agreements distributed	- Estimated appropriation shared with Agencies - Proposed project list due (Aug.-Sept.) - Proposed project list reviewed

Note: General timeline is subject to change and focuses on Council and Agency actions.

Regional Parks and Trails System Funding, Programs, and Agency Shares

Regional Parks and Trails System Funding

The Council Regional Parks and Trails System is funded through a variety of sources:

- State General Obligation Bonds
- State General Funds
- State Lottery in Lieu of Sales Tax Revenue
- Environment and Natural Resources Trust Fund
- Minnesota Clean Water, Land and Legacy Amendment Parks and Trails Fund
- Council Regional Park Bonds
- Interest Earned on Regional Parks and Trails System Funding

Funding Programs

Regional Parks Bonding Grant Program

Two funding sources make up the Regional Parks Bonding Program:

- Regional Park bonds issued by the Council for the Regional Parks and Trails System.
- State general obligation bonds appropriated for the Regional Parks and Trails System.

As noted in the [2050 Regional Parks Policy Plan](#) and the Council's Capital Financing Policy, the Council matches every \$3 of state general obligation bonds with \$2 of Council regional park bonds.

Parks and Trails Legacy Fund Grant Program

The [Minnesota Constitution, Article XI, Section 15](#) established the Parks and Trails Legacy Fund (PTLF) to support parks and trails of regional or statewide significance.

Park Acquisition Opportunity Fund Grant Program

The Park Acquisition Opportunity Fund (PAOF) assists Agencies in acquiring land for the Regional Parks and Trails System. The PAOF comprises state and regional funding sources in two separate accounts:

- The Parks and Trails Legacy Fund/Park Acquisition Opportunity Fund (PTLF/PAOF)
- The Environment and Natural Resources Trust Fund/Park Acquisition Opportunity Fund (ENRTF/PAOF)

Per the Plan and the Council's Capital Financing Policy, the Council matches every \$3 of state funds with \$2 of regional park bonds.

Competitive Equity Grant Program

The Competitive Equity Grant Program provides funding to Agencies for projects that will strengthen equitable usage of regional parks and trails by all our region's residents, across age, race, ethnicity, income, national origin, and ability. The program is also designed to enhance institutional capacity to advance equity work across the Regional Parks and Trails System and with individual Agencies.

Operation and Maintenance Program

The State of Minnesota appropriates money under [Minnesota Statutes, section 473.351](#), to defray the cost of operation and maintenance activities for waters, lands, and facilities that are part of the Regional Parks and Trails System.

Legislatively Directed Pass-Through Grant Program

From time to time, the Legislature directs the Council to administer pass-through grants from direct appropriations that are earmarked for special projects related to parks and trails in the metropolitan area. These grants are awarded to local government jurisdictions, including the Regional Park Agencies, counties, cities, and townships.

Agency Shares

Council Finance Analyst calculates forecasted and final Agency funding shares for each formula-based program using a tool called the Agency Share Calculator. Formulas differ by program and use such variables as an Agency's relative share of regional park visits, nonlocal visits, population within Agency's jurisdiction, acreage, and operation and maintenance expenses. Forecasted Agency shares fluctuate throughout the year as appropriations and inputs are finalized. Council staff will distribute the updated Shares Calculator to Agencies at defined intervals throughout the year:

- Following issuance of the State of Minnesota February forecast.
- Post legislative session update but no earlier than the date when the Council's population estimates are certified (about July 15).
- Following issuance of the State of Minnesota November forecast.

Grant Lifecycle

Project Development

Project development, also referred to as the "pre-award" phase, begins when the Council begins to solicit project proposals and concludes when projects are recommended for a grant. The Council's Parks Planner is the primary points of contact during the pre-award phase.

Council Parks Planner communicates funding opportunities to Agencies to help them prepare for anticipated funding. For all grant programs, this includes coordinating the submission of proposed projects. Council Parks Planner then reviews proposed projects for alignment with long-range plans and program eligibility.

Project Submission

All grant programs use WebGrants for submitting final project applications.

Council Parks Planner initiates and opens a funding opportunity in WebGrants and notifies Agencies that they may begin submitting final project applications. Agencies will see a list of available funding

opportunities when they login to WebGrants. Agencies then begin inputting application information and may continue to edit inputs until all information is complete and/or the application deadline has occurred, where applicable. Once Agencies are satisfied with their application, they will officially submit within WebGrants. Council Parks Planner will then review applications and work with Agencies on any additional information that may be needed. After submission in WebGrants, the Council Parks Planner will use the “negotiate back” function in WebGrants to allow Agencies to complete any necessary edits to a submitted application.

Project Review and Approval

Council Parks Planner conducts final verification of long-range plan compliance and program eligibility before moving to the approval process. The Metropolitan Parks and Open Space Commission (MPOSC) reviews a list of proposed formula grants before the legislative session, and awards are made after the Council receives an appropriation from the state and the funds are brought into the Council’s budget. Non-formula grants are individually reviewed by MPOSC and approved by the Council before awards are made.

Once applications have been submitted, reviewed, approved, and funding has been brought into the Council’s budget, projects move to “Awarded” status in WebGrants. The projects are then in the post-award phase and development of the grant agreement begins.

Grant Agreement

Council Grant Administrators prepare grant agreements and route them for execution. Routing a grant agreement for execution entails the following:

- Council Grant Administrators send grant agreements to grantees for review and signature by the grantee’s designated signatories.
- Grantees return signed grant agreements to Council Grant Administrators to route internally for executing signature.

Grantee receives notification that the agreement has been executed. A copy of the executed grant agreement is provided to the grantee, along with direction on next steps for grant project implementation.

- Attachments to the grant agreement and other required documentation may need to be completed before the project activities occur, or before expenditures are reimbursed. (See individual grant program sections for more information.)
- The Project Activity Period begins on the date indicated in the grant agreement. (See individual grant program sections for more information.)

Project Implementation

Monitoring

Grantees are responsible for the day-to-day management of their grant. As stewards of state and regional funds, Council Grant Administrators monitor grants to identify potential problems and areas where technical assistance might be necessary. This monitoring is done through review of reports and correspondence from the grantee, risk assessments, site visits, and other information available to the Council.

Grantees may be asked to provide documentation for desk reviews and participate in site visits. The Council Grant Administrator may complete periodic site visits to ensure compliance with grant agreements. Monitoring expectations will be communicated to grantees annually.

Grantees are required to clearly post on their website the names of, and the contact information for, the organization's leadership and the employee or other person who directly manages and oversees the grant for the grantee.

Risk Assessments

Council Grant Administrators perform risk assessments of each grantee. Risk assessments are performed at least every two years. Risk assessments include a financial review and examination of prior grantee performance to determine monitoring expectations.

Factors considered in the risk assessment consist of:

- Review of most recent audit and assessment of impact of any findings
- Financial review using the most current version of both the:
 - Annual Comprehensive Financial Report from grantee's governing body.
 - Management and Compliance Report from grantee's governing body.
- Prior performance:
 - Required reports and documents were submitted on time.
 - Required reports and documents provided accurate and pertinent information.
 - Reimbursement requests did not include ineligible activities.
 - Program outcomes were met.
- Staff turnover or grantee systems changes.
- Debarment and suspension of grantee by the Council, state, or federal government.

Risk assessment findings inform monitoring strategies and the frequency of future risk assessments.

Site Visits

Site visits may be conducted as part of the Council's monitoring procedure. Grantees will receive advance notification of visits, including date of the meeting and which documents they should be prepared to share and/or review with Council Grant Administrators.

Council Grant Administrators will perform site visits to fulfill several functions:

- Collect information for monitoring and risk assessment activities.
- Verify specific status of grant project, activities, or outcomes.
- Provide orientation on Council grant programs.
- Update grantees on any changes in the grant program or process.
- Provide technical support:
 - Advise on grant project implementation strategies.
 - Assist with development of grant administration policy and procedure.
- Document grant projects for system-wide publicity efforts.

Grant Reporting

The Council and the state require grantees to submit reports that are due at specific times during the lifecycle of a grant award. All reports must be accurate, complete, and submitted on time.

Council Grant Administrators will communicate all known general reporting requirements and anticipated deadlines each year. Additional specific reporting requirements may be found in grant agreements.

General reporting requirements include:

- Submission of semi-annual progress reports and cash flow projections on all active projects using Council provided report templates. Reports are due July 31 and January 31 of each calendar year.
- Council or state reporting requirements stated in the grant agreement that are necessary for the Council to meet its reporting obligations. For example, the Council will use reports to meet annual reporting requirements of the Parks and Trails Legacy Fund and the Environment and Natural Resources Trust Fund.

Payment Requests

The Council disburses grant funds on a reimbursement basis for grant-eligible expenses incurred during the grant's project activity period. Although grant expenses may be incurred during the grant's project activity period, the Council will not disburse grant funds until the grant agreement has been executed and other required documentation identified by the Council is complete and submitted. (See individual grant program sections for more information on required documentation.)

Once the grant agreement is executed and all required documentation received, the grantee may submit a reimbursement request for grant-eligible expenses. Agencies are required to submit reimbursement claims at least twice annually, during designated claim periods. The claim periods include all expenses incurred from January 1 – June 30 and July 1 – December 31, respectively. Agencies have the six months following the end of a claim period to submit their reimbursement request. This allows time for Agencies to receive and pay invoices for eligible expenses. For example:

- Claim Period: January 1 – June 30
 - Grantee has until December 31 to submit expenses for this period
- Claim Period: July 1 – December 31
 - Grantee has until June 30 to submit expenses for this period

Grantees are welcome to submit for reimbursement more frequently, just not more than monthly. If Agencies do not have expenses for a given claim period, they must inform Council Grant Administrators via email that there are no expenses to be claimed. Once a claim period has been identified and expenses submitted, that period will be closed and no additional expenses will be accepted, unless an exception is requested and approved by Council Grant Administrators.

Final claims are required to be submitted 60-90 days after project completion or grant expiration, whichever comes first. (See individual grant program sections for more information.)

Eligible expenses are:

- Consistent with the grant agreement, specifically the scope and budget presented in the grant project summary.
- Consistent with state statutes, as applicable.
- Consistent with state guidance documents, as applicable:
 - Bond-eligible expenses listed in the [State of Minnesota Capital Grants Manual](#).

- PTLF eligible expenses subject to [MMB Guidance to Agencies on Legacy Fund Expenditure](#).
- Consistent with relevant Council policies.
- Consistent with individual grant program requirements.

Required Supporting Documentation

Grantees must supply adequate supporting documentation to substantiate each cost claimed for reimbursement. Council Grant Administrators review reimbursement requests for accuracy to ensure expenses align with the grant scope and budget. Each payment request must contain a description of the activity, date of activity, expense, and proof of payment. Payment-request documentation should be noted on a payment request form and verified by the grantee's Authorized Representative.

Supporting documents include, but are not limited to:

- Contractor and/or subcontractor invoices.
 - If invoices include subcontractor expenses, a copy of the subcontractor's invoice(s) must be provided.
- Pay applications and their line-item details (continuation sheets).
- Copy of a contract.
- Signed waivers or lien statements.
- Itemized Receipts.
- Proof of payment.
 - Typically consists of a copy of the canceled check along with output from the grantee's official accounting system showing the transaction(s).

The grantee is responsible for identifying expenses for reimbursement and for excluding ineligible expenses. Lack of clear information and supporting documentation may delay payment processing or cause the payment request to be returned to the grantee for further clarification.

Reimbursement Claim Submission Process

- Grantee prepares claim requests using the payment request form provided by the Council.
- Grantee submits the completed payment request form, along with supporting documentation through WebGrants, the Council's online grant management system.
- Council Grant Administrators review payment requests for completeness and accuracy.
- Council Grant Administrators work with the grantee to identify any ineligible expenses and/or gather additional information needed for payment approval.

Payment Timelines

The Council will make payments within 35 days of a complete submission, as required by [Minnesota Statutes, section 471.425](#). The Council will notify grantees within 10 days if it finds substantive errors in the payment request that prevents Council approval. After notification of any errors, the 35-day period restarts the day the claim is resubmitted. The Council will not make final payments until the grantee meets all reporting requirements.

Billable Rates for Agency Staff Time

Agencies may elect to establish billable rates for staff time charged directly to eligible grants. Billable rates include salary, fringe, facilities, and administration expenses. Development of billable rates allows

Agencies to accurately capture costs for each staff person and calculate their fair share of expenses necessary to keep an office running.

Agencies that opt to pursue billable rates will be required to complete the Billing Rate Calculator following the step-by-step instructions as developed by the Council.

- [Billing Rate Calculator](#)
- [Metropolitan Council – Billable Rates Guidance](#)

Billable rates are not eligible for all grant programs.

Eligible programs include:

- Parks and Trails Legacy Fund
- Competitive Equity Program (determined on a case-by-case basis)
- Park Acquisition Opportunity Fund (determined on a case-by-case basis)

Ineligible programs include:

- Regional Parks Bonding
- Legislatively Directed Pass-Through

[Grant Amendments](#)

To request an amendment for any grant program, Agencies submit a written request detailing what project changes require an amendment, the purpose and rationale for the amendment, and provide any supporting documentation. The proposed amendment must be consistent with both the scope and the budget of a project approved by the Agency's governing body or Authorized Representative.

Types of Amendments

- Extension for additional time.
- Change in project scope.
- Change in awarded amount.
- Significant change in project budget (Considered on a case-by-case basis. Consult with Council Grant Administrators for further information.)

Grant Amendment Process

- At least 90 days prior to expiration grantee submits a signed request for the amendment on organization letterhead, including:
 - Title and Council grant number.
 - Type of amendment requested.
 - Reason for request.
- Council Parks Planner and Council Grant Administrators review request for alignment with long-range plan, compliance with program terms*, and compliance with all relevant statutes or appropriation law.
 - Additional Council finance processes may be required if amendment involves changes to awarded amount.
- Council Grant Administrators route for internal approval of proposed amendment
- Amendment document sent to grantee for review and signature.

- Grantee returns signed amendment document to the Council.
- Council executes amendment.

*See program descriptions for amendment options.

Grant Closeout

A grant is ready to close out when all project activities are complete, the grant award has been fully expended, or the balance is no longer needed to complete grant activities, and/or the grant term has ended. The closeout of a grant will render the grant inactive and unavailable for reimbursement of additional incurred project expenditures.

Grant Closeout Process

- Grantees submit a Certified Closeout Form and all necessary backup documentation, along with their final reimbursement claim. Final payments will not be made until all reporting requirements are complete.
- Grantees complete the Certified Closeout Form by verifying the following:
 - Status of the project.
 - Remaining balance of funds.
 - Final project budget expenditures.
 - At least one photo demonstrating the completion of the grant project.
 - Any additional grant program required documentation (see additional required reporting at closeout, below).
- Grantee submits the Certified Closeout Form and supporting documentation (with the final pay request) through WebGrants.
- Council Grant Administrator reviews Certified Closeout Form for completeness and accuracy. They review project documentation for completion and follow up with grantees if additional necessary documentation is needed.
- Once Certified Closeout Forms are approved, final payment is released, and unspent funds can be reallocated according to grant program guidelines.

Additional Required Closeout Reporting

The following reports are required for individual grant programs:

- PTLF grants: Measurable Outcomes Report.
- Equity grants: Equity Outcomes Report.
- PTLF and state bonding agreements: Small Disadvantaged Business Report
 - Not required for all grants, see specific grant program specifications for details
- State bonding grants: Minnesota Management and Budget jobs report
 - Not required for all grants, see specific grant program specifications for details

Unspent Funds

The availability and use of unspent funds by an Agency depends on the conditions established by the program governing the grant. These can be found in the detailed program descriptions of this manual.

Records Retention

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of the grant, or may reasonably be considered pertinent to a grant, for a period of six years from the date the final report is submitted.

Grantees can refer to the applicable grant agreement for additional information about records retention requirements.

Grant Program Specifications

Regional Parks Bonding Grant Program

The Regional Parks Bonding Program is intended for Regional Parks and Trails System acquisition, development, and redevelopment projects.

Statutory Authority and History

Bond funds have been used to support the Regional Parks and Trails System since its inception. The Minnesota Constitution, Article XI, Section 5, paragraph (a) authorizes the state to issue bonds to “acquire and to better public land and buildings and other public improvements of a capital nature. . .” [Minnesota Statutes, section 473.325](#) authorizes the Council to issue bonds for the acquisition and betterment of regional recreation open space.

Fund Source

Two primary funding sources make up the Regional Parks Bonding Program:

- State of Minnesota General Obligation bonds authorized in statute and appropriated in session law.
- Council issued Regional Parks bonds under authority of [Minnesota Statutes, section 473.325](#).

Based on the [2050 Regional Parks Policy Plan](#) and Council’s Capital Financing Policy, the Council matches every \$3 of state bonds with \$2 of Council regional park bonds.

Agency Shares and Allocation of Funding

The Council distributes Regional Parks Bonding Program funds to the Agencies according to a formula defined in the [2050 Regional Parks Policy Plan](#):

- 70% based on the population within the jurisdiction of each Agency, compared to the region’s total population

- 30% based on the number of visits an Agency hosted from individuals who live outside the Agency’s jurisdiction (non-local visits).

Program Parameters

Development in Regional Parks and Trails System units should be based on the principle of providing and maintaining high-quality public park areas and facilities, primarily for residents of the metropolitan area.

Consistent with the authorizing state statutes and the [2050 Regional Parks and Trails Policy Plan](mailto:public.info@metc.state.mn.us), all grants from the Regional Parks Bonding Program are limited to funding projects that:

- Are within the boundaries of the Regional Parks and Trails System.
- Are consistent with the [2050 Regional Parks and Trails Policy Plan](mailto:public.info@metc.state.mn.us).
- Are consistent with a Council-approved long-range plan before the Council executes a grant agreement.
- Do not allow private use of the property and/or facility acquired and/or improved, considering that any private use can jeopardize the tax-exempt status of the bonds.
- Have been approved by their local elected boards either individually or as part of local capital improvement plans.
- Have been prioritized by the Agency in response to local capital needs.
- Have been included on a list of proposed projects, reviewed by Metropolitan Parks and Open Space Commission, and included as part of the governor's state bonding request.

Eligible and Ineligible Expenses

The Regional Parks Bonding Program allows for the Project Activity Period to begin before the grant agreement is executed. The grant agreement defines the Project Activity Period, which indicates the start date for eligible expenses.

Eligible Expenses

Include, but are not limited to:

- Construction and other improvements or acquisitions of fixed capital assets.
- Predesign, design, engineering.
- Land acquisition
 - Acquisition purchase price may not exceed 110% of appraised value.
- Wetland Banking Credits (when necessary, as part of project development)

The eligibility criteria for development, rehabilitation, and restoration of regional parks, park reserves, trails, and special recreation features are:

- Projects that provide new facilities, rehabilitate facilities, or increase capacity where there is documented existing or projected high use.
- Projects continuing a phased high-priority project or one having relatively high priority that is timed with other public improvement projects to achieve significant economies in cost of construction.
- A project providing a specific facility that meets a documented need, is currently not available, or is significantly under-represented in the system.

- Regional trails that connect to other trails or regional facilities or extend existing trails.
- Natural resource restoration, including transforming degraded land into land with more representative native species and historic vegetation patterns.
- Acquisition of parkland parcels.

Ineligible Expenses

Ineligible expenses include, but are not limited to:

- General operating expenses, general administration, or similar expenses
- Long-range planning.
- Staff time (unless approved by MMB prior to grant execution and subject to MMB reporting requirements).
- Individual software licenses or property for individual use, such as computers.
- Construction of ball fields, rinks, or soccer fields.
- Concession-only buildings.
- Purely decorative installations.
- Facilities not available for public use.
- Dredging, water impoundments, or dams.
- Golf courses.
- Indoor recreational facilities.
- Acquisition of land already in public recreational use.
- Legal fees.
- Memberships.
- Agency insurance premiums.
- Fund-raising.
- Paying off bad debt, paying interest on loans, or providing contingency funds.
- Paying lobbyists or political contributions.
- Entertainment or gifts.
- Maintenance equipment.
- Nonpermanent infrastructure.
- Any expenditure that occurs outside of the activity period as outlined in the Grant Agreement.

Match

No local dollar match is required for this program.

Procedures

Pre-Appropriation

- Council provides forecasted Agency shares for use in Agency project development
- Agencies submit proposed project list for the bonding appropriation
- Council Parks Planner and Agencies present proposed project list to MPOSC
 - Agencies highlight how projects advance equitable use of the Regional Parks and Trails System

Post-Appropriation

- Council Finance Analyst finalizes Agency shares based upon:
 - Appropriation approved by legislature and signed by Governor.

- Final non-local visit data
 - Certified Population numbers (not available until after July 15th)
- Council Parks Planner initiates a new funding opportunity and communicates timelines and requirements to the Agency.
- Agency submits project applications based on finalized Agency shares provided by Council staff. Application components include project scope, budget, and measurable outcomes.
- Council Parks Planner reviews the applications for completeness and compliance with eligibility requirements.
- The project then moves into the post-award phase. The post-award phase begins when a project has been approved for a grant and continues until grant closeout.

Additional requirements of Minnesota Management and Budget for grants funded with state bonds:

- Predesign Review by Department of Administration is required for capital projects unless exempt in [Minnesota Statutes, section 16B.335](#).
 - Capital projects exempt from the requirements include demolition or decommissioning of state assets, hazardous material projects, utility infrastructure projects, environmental testing, parking lots, parking structures, exterior lighting, fencing, storage facilities not consisting primarily of offices or heated work areas, roads, bridges, trails, pathways, campgrounds, dams, floodwater retention systems, water access sites, harbors, sewer separation projects, water and wastewater facilities, a local government project with a construction cost of less than \$1,500,000, or any other capital project with a construction cost of less than \$750,000.
 - A predesign is not required for capital projects for park buildings owned by a local government unit in the metropolitan area defined in [section 473.121, subdivision 2](#).
- Legislative notification is required for all capital projects for which a specific appropriation is made. Projects must not proceed until the recipient undertaking the project has notified the chairs and ranking minority members of the senate Capital Investment and Finance Committees and the house of representatives Capital Investment and Ways and Means Committees that the work is ready to begin.
- Capital projects funded in whole or in part by state bonds must demonstrate to MMB a full-funding commitment to the project(s). Agencies must provide the following:
 - Board (governing body) approval of the project, demonstrating its commitment to complete.
 - A line item in the Agency's capital budget showing the exact dollar amount committed to complete the project
 - Agencies must be able to document they either have the funds in hand or have a satisfactory commitment to receive the additional funds necessary to complete the stated project scope.
 - Grant agreement:
 - Attachment III – Source and Use of Funds
 - Attachment IV – Project Completion Schedule
- Council Grant Administrators provide these Agency documents to MMB for its approval. Occasionally, additional information may be requested.
- The Agency must post a Recorded Funding Declaration on grant project property benefiting from the grant. This is required before the Agency is eligible for reimbursement.

- If a grantee is granted a Declaration Waiver from MMB a Declaration Waiver Certification Letter (included in approval packet from MMB) must be provided before the grantee is eligible for reimbursement.
- Agencies with capital projects funded by state bonds are required to verify compliance with equal pay and workforce certificate requirements or notify Council staff of an exemption based on contract size.
 - Equal Pay Certificate requirements apply to all contracts entered by cities, counties, townships, and other political subdivisions for contracts exceeding \$1 million. If an Agency's project is exempt from these requirements based on contract size, the Agency will be required to notify Council staff to fulfill the verification requirement.
 - Workforce Certificate requirements apply to all contracts for goods and services entered by cities, counties, townships, and political subdivisions for contracts exceeding \$250,000. If an Agency's project is exempt from these requirements based on contract size the Agency will be required to notify Council staff to fulfill the reporting requirement.
- Other requirements may be communicated to Agencies if and when MMB updates their procedures.

The project then moves into the post-award phase, which begins after the Council has approved funding for the project by including it in the Council's Annual Capital Program and Council Grant Administrator routes the grant agreement for execution.

Amendments

Amendments to the terms of Regional Park Bonding Program Grants are possible when not otherwise prohibited by law, statute, or funding allocation. The types of amendments available for this program include:

- Shift in budget line items.
- Extension of grant term.
- Changes in grant-funded activities consistent with project scope
 - May require additional approval by MMB if the change to project scope is significant. (Consult with Council Grant Administrator for further information.)

Closeout Reports

To close out a Regional Parks Bonding Program grant, Agencies must submit a Certified Closeout Form and all necessary documentation, along with their final reimbursement claim. The Council must receive:

- Complete Certified Closeout Form.
- Recorded Declaration (if not already on file).
- Photo demonstrating grant-funded activities.
- State of Minnesota Jobs Report (for all grants awarded prior to State Fiscal Year 2021).
- Small Disadvantaged Business Report (for all grants awarded prior to State Fiscal Year 2021).

Unspent Funds

When an Agency completes and closes a Regional Parks Bonding Program grant project and there are funds remaining, those funds may be relinquished to the Agency's undesignated account and made available for other Council-reviewed and eligible Regional Park Bonding Program projects. Relinquished funds can be added to the next funding round before new grant projects are executed.

Relinquished funds must be utilized in the next funding round, or they may be returned to the fund source.

Parks and Trails Legacy Fund Grant Program

Statutory Authority and History

The Parks and Trails Legacy Fund (PTLF), one of four Clean Water, Land and Legacy Amendment Funds, supports parks and trails of statewide or regional significance ([Minnesota Statutes, section 85.53](#)).

Fund Source

Along with the Department of Natural Resources and Greater Minnesota Regional Parks and Trails Commission, the Council receives a portion of the PTLF appropriations for the metropolitan area's Regional Parks and Trails System.

Agency Shares and Allocation of Funding

The Council distributes PTLF money to the Agencies according to a formula defined in [Minnesota Statutes, section 85.53](#).

- 45% based on each Agency's share of O&M funding according to the allocation formula in [Minnesota Statutes, section 473.351, subdivision 3](#).
- 31.5% based on each Agency's relative share of the most recent estimate of the population of the metropolitan area.
- 13.5% based on each Agency's relative share of nonlocal visits based on the most recent user visitation survey conducted by the Council.
- 10% set aside for Park Acquisition Opportunity Fund.

Program Parameters

Consistent with the [Minnesota Constitution, Article XI, section 15](#), authorizing state statutes (including [Minnesota Statutes, section 3.303](#)), and the [2050 Regional Parks Policy Plan](#), all projects submitted for funding from PTLF must:

- Be consistent with the [Parks and Trails Legacy Plan](#), the foundational document for the use of PTLF in the state, which specifies four strategic directions for use of all PTLF funds:
 - Connect People and the Outdoors: Develop stewards of tomorrow through efforts to increase lifelong participation in parks and trails.
 - Acquire Land, Create Opportunities: Create new and expanded opportunities to serve current and future users.

- Take Care of What We Have: Provide safe, high-quality experiences through regular reinvestment in infrastructure and natural resource management.
 - Coordinate Among Partners: Enhance coordination among the network of public, private, and nonprofit park and trail partners.
- Be located within the boundaries of the Regional Parks and Trails System (for capital projects only; for example, acquisitions*, development, and conservation).
 - Outreach activities outside the boundaries of the Regional Parks and Trails System are allowable if the Agency can demonstrate a direct connection between the outreach activities and use of the Regional Parks and Trails System.
- Be consistent with the [2050 Regional Parks and Trails Policy Plan](#).
- Be consistent with a Council approved long-range plan prior to the Council executing a grant agreement.
 - Outreach activities outside of a Council approved long-range plan are allowable if the Agency can demonstrate a direct connection between the outreach activities and use of the Regional Parks and Trails System.
- Supplement, but not substitute for, traditional sources of funding. To ensure compliance with the requirements, projects funded with PTLF funds must:
 - Start new projects or programs, or
 - Continue projects or programs without substituting PTLF funds for other funds, or
 - Expand or accelerate projects through the addition of PTLF funds.
- Be substantially consistent with the project descriptions and dollar amounts approved by each Agency's elected body.
- Have been prioritized by the Agency in response to local capital and programmatic needs.

*Agencies may use their PTLF allocation for land acquisition; however, the Council does not match these funds.

Examples of Eligible Parks and Trails Legacy Fund Projects

Projects include, but are not limited to:

- Acquisition of land for future development of recreation facilities, protection, or preservation of high-value land for public use or critical park inholdings. Rehabilitation and development of existing facilities.
- Development of approved outdoor recreation facilities.
- Long-range planning.
- Accessibility enhancement.
- Natural resource management.
- "Connect People to the Outdoors" programming

Eligible and Ineligible Expenses

The Parks and Trails Legacy Fund program allows the Project Activity Period to begin before the grant agreement is executed. The Project Activity Period, which indicates the start date for eligible expenses, is defined in the grant agreement.

Eligible Expenses

Include, but are not limited to:

- Program materials and supplies.

- Pre-design, design, engineering, and construction.
- Wetland Banking Credits (when necessary, as part of project development)
- Contracted program services and instructors.
- Land acquisition, including permanent easements and long-term lease agreements.
 - Acquisition purchase price may not exceed 110% of appraised value
- Equipment rentals.
- Equipment for programming use.
- Advertising and promotion of program offerings.
- User transportation to and from recreation facilities.
- Translation and interpretation services.
- Agency staff time that is reasonable and necessary to achieve the outcomes of the grant.
- Special events directly related to and necessary to achieve the outcomes of the grant.
- Outreach and engagement community participation expenses that may include:
 - Stipends, child-care, and/or refreshments
 - Must be directly related to and necessary to achieve the outcomes of the grant.
 - Not exceeding limits approved by the Council and in amounts consistently and rationally applied
- Staff Training.
- Hiring Staff.

Ineligible Expenses

Ineligible expenses include, but are not limited to:

- Funding for programming efforts that have an established, dedicated, traditional funding source.
- General operating expenses and general administration or similar expenses (unless included in a Council approved billable rate for Agency staff time billed directly to the grant).
- Software and Agency property such as computers.
- Construction of ball fields, rinks, or soccer fields.
- Concession-only buildings.
- Purely decorative installations (without prior Council approval).
- Facilities not available for public use.
- Dredging, water impoundments, and dams.
- Golf courses.
- Indoor recreational facilities.
- Acquisition of land already in public recreational use.
- Legal fees not related to acquisition.
- Memberships.
- Agency insurance premiums.
- Fund-raising.
- Paying off bad debt, paying interest on principal, or reserving for contingency funds.
- Payment to lobbyists or political contributions.
- Food and/or refreshments not directly related to and necessary for outreach/public engagement and not in excess of amounts that are rationally allocated and consistently applied based on established Agency policy or defaulting to Council Food and Refreshment Procedure.
- Entertainment not directly related to and necessary for outreach/public engagement.

- Gifts of any kind that are not directly related to and necessary to accomplish approved programmatic outcomes
- Any expenditure that occurs outside of the activity period as outlined in the grant agreement.

Match

No local match is required for this program.

Procedures

Pre-Appropriation

- Council provides forecasted Agency shares for use in Agency project development
- Agencies submit proposed project list for the biennium
- Council Parks Planner and Agencies present proposed project list to MPOSC
 - Agencies highlight how projects advance equitable use of the Regional Parks and Trails System

Post-Appropriation

- Council Finance Analyst finalizes Agency shares based upon:
 - Appropriation approved by legislature and signed by Governor.
 - Agency shares of Operations & Maintenance funding
 - Final non-local visit data
 - Certified Population numbers (not available until after July 15th)
- Council Parks Planner initiates a new funding opportunity and communicates timelines and requirements to the Agency.
- Agency submits project applications based on finalized Agency shares provided by Council staff. Application components include project scope, budget, and measurable outcomes.
- Council Parks Planner reviews the applications for completeness and compliance with eligibility requirements.
- The project then moves into the post-award phase. The post-award phase begins when a project has been approved for a grant and continues until grant closeout.

Amendments

Types of amendments allowed:

- Shift of dollars between budget line items.
- Extension of grant term (maximum of five years, as allowed by [Minnesota Statutes, section 16B.98](#)).
- Changes in grant-funded activities consistent with project scope.
- Addition of funds from new fiscal year of Agency share of PTLF
- Addition of funds relinquished from other Agency PTLF projects.

Closeout Reports

To close out a PTLF grant, Agencies submit all necessary documentation, along with their final reimbursement claim. The Council must receive:

- Complete Certified Closeout Form.
- Small Disadvantaged Business Report (for all grants awarded prior to State Fiscal Year 2021).
- Measurable outcomes.

- Photo demonstrating grant-funded activities.

Unspent Funds

When an Agency closes out a PTLF grant and there are funds remaining in the account, those funds can be reprogrammed to other Council reviewed and eligible PTLF projects. This can be done through an amendment to an existing PTLF grant or through the addition of relinquished funds prior to the execution of a new grant project.

Parks Acquisition Opportunity Fund (PAOF)

Statutory Authority and History

Established in 2001, the Park Acquisition Opportunity Fund (PAOF) provides grants to assist Agencies in acquiring land for the Regional Parks and Trails System.

Fund Source

The PAOF program has three funding sources:

- State Funding Sources
 - Parks and Trails Legacy Fund (PTLF): 10% of PTLF appropriations are set aside for land acquisition through the PAOF.
 - Environment and Natural Resources Trust Fund (ENRTF): The ENRTF acquisition opportunity grant fund is composed of direct appropriations received by the Legislative-Citizen Commission on Minnesota Resources (LCCMR) for land acquisition. The LCCMR establishes the requirements for ENRTF funding, including funding used as part of the PAOF program.
- Council Funding Source
 - Council Bonds: For every \$3 in state funding, the Council matches with \$2 in funds from Council regional park bonds, as directed by the [2050 Regional Parks and Trails Policy Plan](#) and the Council's Capital Financing Policy. For PTLF funds this is also a statutory requirement ([Minnesota Statutes, section 85.53](#)).

Allocation of Funding

The Council's PAOF program is non-competitive, and grants are awarded based on funding availability. Grants are awarded on a first-come, first-served basis. An Agency establishes their place in line once Council Parks Planner determines their application is eligible and complete.

Each Agency is eligible for up to \$2 million for acquisitions from the PTLF and corresponding Council match funds, and up to \$3 million from the ENRTF and corresponding Council match funds per state fiscal year, for a total of \$5 million in PAOF funding per state fiscal year. Agencies can use both PTLF and ENRTF funds in a single acquisition to access the full amount of PAOF dollars allowable.

Program Parameters

Consistent with the authorizing state statutes and the [2050 Regional Parks and Trails Policy Plan](#), all PAOF funded acquisitions must be:

- Located within the boundaries of the Regional Parks and Trails System.

- Consistent with the 2050 [Regional Parks and Trails Policy Plan](#) or subject to an amendment to [the 2050 Regional Parks and Trails Policy Plan](#) to designate the land as regional recreation open space.
- Consistent with a Council approved long-range plan or a Council approved acquisition long-range plan.
- Located fully within Council approved long-range plan boundaries before the Council will execute a grant agreement.
- Reserved for public use in perpetuity for the Regional Parks and Trails System.

Consistent with the [authorizing state statutes](#) and the [2050 Regional Parks and Trails Policy Plan](#), all ENRTF funded acquisitions must additionally follow LCCMR requirements.

PAOF grants may pay for up to 75% of eligible expenses for acquisitions that meet the above requirements. The Council will not provide grant funds for costs exceeding 110% of the appraised value unless the use of eminent domain was required. For grants that have a purchase price exceeding 100% of the appraised value, PTLF will be used when available. In special circumstances, ENRTF may be used for grants with purchase prices over 100% and up to 110% of the appraised value; these special circumstances require Agency testimony to the LCCMR for approval, in addition to the Council approval process.

Eligible and Ineligible Expenses

The Project Activity Period allows expenditures incurred before the execution date to be eligible for reimbursement. The Project Activity Period, including the start date for eligible expenses, is defined in the grant agreement. Some costs incurred before the project activity period may be eligible for reimbursement if they were submitted with an approved application, including but not limited to appraisals and environmental assessments.

Eligible Expenses

Eligible PAOF expenses are costs directly related to the land acquisition, consistent with the Council-approved long-range plan, including:

- Cost of real estate.
- Closing costs
 - Title Insurance
 - Recording Fees
- Relocation assistance.
- Special assessments existing at the time land was designated for the regional system.
- Legal fees and appraisals.
- Property taxes and/or payment in lieu of local property taxes.
- Environmental Assessment Phase I and/or Phase II.
- Land stewardship costs, including:
 - Boundary fencing or marking.
 - Natural resources restoration.
 - Removal of unneeded structures, landforms, or nuisances.
 - Maintenance or closing of existing roads.
 - Development measures to support minimal recreational use of the unit, including access roads, parking lots, and signage.

- Remediation of pre-existing environmental contamination to the degree necessary to allow the land to be used for park and recreation purposes.

Ineligible Expenses

- Lands or land rights acquired through park dedication are not eligible for PAOF grant funds.
- Acquisitions funded through ENRTF may not be used to purchase structures.

Match

Agencies must fund at least 25% of the total estimated acquisition expenses as local match.

The local match may be one or more of the following:

- Non-state funds and non-Council funds provided by the Agency.
- The value of a land donation by the seller. The value of the donation is the difference between the agreed-upon purchase price based on a certified appraised value of the property and the lower amount the seller agrees to accept as payment for the land.
 - Grant budgets that include land donation should use the appraised value as the purchase price so that the value of the land donation can be used for part of the agency's local match.

Procedures

Project Development

- Agencies are encouraged to communicate upcoming acquisition opportunities with Council Parks Planner as early as possible to determine whether funding is available.
- Agencies may submit acquisition proposals at any time.
 - If acquisition funding is not currently available, Council Parks Planner will continue to review applications for the next available funding opportunity.
- Agency staff submits project proposals in WebGrants.
- Council Parks Planner will review the proposals for completeness and compliance with eligibility requirements.
- Once a project is deemed eligible and complete, it is placed "in line" for funding. Council Parks Planner will notify the Agency of anticipated timelines for Council action.
- The Council must approve projects before moving to the post-award process.
- Council Grant Administrators will issue grant agreements for all Council-approved acquisition grants.
- Agencies may close on the property immediately following Council approval, unless otherwise stipulated by Council action. However, the Agency assumes the risk of doing so before executing the grant agreement.

Application Elements

In addition to the requirements outlined above, the application must include the following elements:

- A copy of the fully executed acquisition instrument – a purchase agreement, easement offer, or court settlement.
 - The acquisition instrument should be executed within one year prior to the application submission date unless the Council Parks Planner has approved an exception.
- A certified appraisal that supports the purchase price (see appraisal requirements below).

- A letter from the Agency's Authorized Representative requesting the grant, on organizational letterhead.
- A copy of the Agency's formal board action/recorded resolution of support authorizing the purchase.
- Land stewardship plan.
- The legal description of the property.
- Aerial photos or images showing the park or trail boundary with a parcel boundary overlay.
- A close-up image of the parcel.
- A Phase I Environmental Site Assessment report, if the property may be contaminated or may have abandoned wells.
 - A Phase II ESA may be required if the results of the Phase I ESA identify a need for further investigation.
- A complete budget, which includes all costs associated with the acquisition.

Appraisal Elements

Agencies must submit an appraisal with each PAOF request that meets the following requirements:

- The appraisal was completed by a Minnesota Certified General Licensed appraiser and has included his/her license number in report. The report:
 - is dated and states the effective date of the appraisal, which is within two years of the application submission date or one year of the date of the executed acquisition instrument.
 - describes the real estate being appraised in detail, including physical, economic property characteristics, and the use of the real estate as of the date of value.
 - describes the scope of work used to develop the appraisal. This includes stating all assumptions, hypothetical conditions, and limiting conditions that affected the analyses, opinions, and conclusions.
 - describes the information analyzed, the appraisal procedures followed, and the reasoning that supports the analyses, opinions, and conclusions.
 - names the Council as an intended user.
 - includes the appraiser-provided written appraisal instructions received by the appraiser from the client/grantor/partner, as an addendum to the appraisal report.
- Appraiser certifies:
 - that appraisal conforms to the Uniform Standards of Professional Appraisal Practice (USPAP).
 - to having physically inspected the property.
 - to having given the landowner an opportunity to accompany them on the inspection.
 - they were provided a copy of the landowner disclosure form.
- The legal description of the appraised property matches the appraisal request.
- The property size matches the grant request.
- The interests in the appraised property match the appraisal request.
- The highest-and-best-use analysis determines an economic highest and best use, which is in accordance with current legal restrictions on the land.
- The appraiser has not reported any environmental concerns or nuisances.
- The Sales Comparison Approach relies upon comparable properties that are both superior and inferior to the subject property.

The Council may require additional appraisals or appraisal reviews. Council Parks Planner will use discretion if any of these appraisal requirements are not met.

Additional Information

Environment and Natural Resources Trust Fund

Additional requirements apply when using Environment and Natural Resources Trust Fund. Parcels must be on an approved ENRTF work plan. If an acquisition opportunity arises that is not on a work plan, Council staff will work with LCCMR staff to request an amendment to the work plan to add the parcel. Please allow extra time for this process. In some cases, Agency staff may be required to present their project to the full commission for approval. Acquisitions using ENRTF must be for parcels that have high quality natural resources or restoration potential. ENRTF may not be used for parcels that contain structures of value.

Splitting parcels may be allowed on a case-by-case basis to use a combination of ENRTF and Legacy funding. The ENRTF portion must be significant in either size or cost to justify seeking approval from LCCMR staff and must have a strong natural resources component. The Legacy portion must also be able to stand on its own as a high-quality acquisition. For projects with split funding, ENRTF will only be used for budget categories with exact known costs.

Eminent Domain

An Agency may need to acquire land by exercising its power of eminent domain by initiating a condemnation proceeding. When land is acquired through the condemnation process, a PAOF grant may be awarded; however, a grant is awarded at the conclusion of a condemnation proceeding. The grant is based on 75% of the final settlement/award and associated grant-eligible expenses under applicable provisions of Minn. Stat. Ch. 117 to acquire the land and within the Agency maximum for the fiscal year when the grant is awarded.

After filing its condemnation petition with the district court, the Agency must notify the Council that it is acquiring land through condemnation and will be requesting a PAOF grant when the final award is determined. The notification to the Council must include the Agency's authorization to file its petition and the accompanying documents containing its appraisal of the land. In condemnation matters, the final settlement/award and final certification should be submitted to the Council in lieu of a signed purchase agreement.

Third-party Acquisitions

If there is no PAOF funding available, Agencies may work with a third-party entity to have them temporarily acquire and hold an eligible property until the Agency is able to obtain funding.

Reimbursement for third-party acquisitions will be considered only when program funding has run out for the fiscal year and Agencies can demonstrate an urgent need to acquire the property before additional acquisition funding is available. An example of an urgent need would be a situation where an acquisition opportunity would be lost because of a lack of available funds. This process should include exploring whether a local agency has local funds on hand to assist with the acquisition. Third-party acquisitions should be conducted with a nonprofit or government entity when possible.

To qualify for reimbursement for a third-party acquisition, the Agency must submit a complete PAOF application along with a letter of intent notifying the Council of the third-party acquisition before the third party purchases the property. Council Parks Planner will have up to 30 days to review the request and provide direction to the Agency. Once the application and third-party request has been approved by Council Parks Planner, the acquisition will be considered "in line" for the next funding cycle. Once funding is available, Council Parks Planner will follow the normal PAOF process for Council approval.

The Agency must purchase the property from the third party as soon as possible after Council approves a grant award.

Amendments

Type of amendments allowed:

- Extension of grant term.

Closeout Reports

To close out a PAOF grant, Agencies must submit to the Council all necessary documentation along with their final reimbursement claim. The Council must receive:

- Complete Certified Closeout Form.
- Photo demonstrating grant-funded activities.

To be reimbursed for acquisition expenses, Agencies must submit to the Council:

- Recorded Agreement and Restrictive Covenant.
- Recorded Deed.
- Recorded Declaration (only for acquisitions funded with ENRTF)

Unspent Funds

Any grant funds remaining upon completion of grant deliverables will be relinquished to the fund source to be made available for future acquisition requests from Agencies.

Competitive Equity Grant Program

Statutory Authority and History

The Regional Parks and Trails System Competitive Equity Grant Program, hereafter referred to as the Equity Grant Program, provides funding to Agencies for projects that will strengthen equitable usage of regional parks and trails by all our region's residents, across age, race, ethnicity, income, national origin, and ability. The program is also designed to enhance institutional capacity around equity work across the Regional Parks and Trails System and within individual Agencies.

The Equity Grant Program was established in 2019 with a pilot program funded from Council bonds for capital projects. The 2021 and 2024 Equity Grant Program grant rounds supported both capital and non-capital projects funded by a mix of Council bonds and Parks Interest Earnings. Future funding rounds will be a mix of Council Bonds and Parks Interest Earnings, subject to Council direction and availability of funds.

Fund Source

- Council-issued Regional Park bonds under authority of [Minnesota Statutes, section 473.325](#).
- Parks Interest Earnings

Allocation of Funding

The Equity Grant Program is a competitive grant program with an application period following the release of a Council-approved Notice of Funding Availability. Grant applications are scored by a review

team and recommended to the Council for funding. Only the projects selected by the review team and approved by the Council will be awarded grant funds.

Program Parameters

- Statute [473.315](#) (authority to make grants) & [473.351](#) (defines park implementing agencies).
- Must submit a complete application within the defined application period.
- Agencies may submit multiple applications but are limited to a prescribed award maximum within each funding cycle.
- Grants are paid on a reimbursement basis.
- Grants must address one or more of the following equity focus areas:
 - Age, race, ethnicity, income, national origin, or ability
- Projects must be within the boundaries of the regional parks and trails system or clearly connect visitors to the regional parks and trails system.
- Projects must be consistent with the [2050 Regional Parks and Trails Policy Plan](#).
- Project must be broadly consistent with a Council-approved long-range plan.
- Projects must be compliant with the Americans with Disabilities Act.
- Projects must be approved by the Agency's locally elected board, either individually or as part of a local capital improvement plan, prior to the Council executing a grant agreement.

Eligible and Ineligible Expenses

Council Bond Funded Projects:

Eligible Expenses

Include, but are not limited to:

- Construction and other improvements or acquisitions of fixed capital assets.
- Predesign, design, engineering.
- Wetland Banking Credits (when necessary, as part of project development)

Ineligible Expenses

Ineligible expenses include, but are not limited to:

- General operating expenses, general administration, or similar expenses
- Long-range planning.
- Staff time
- Individual software licenses or property for individual use, such as computers.
- Construction of ball fields, rinks, or soccer fields.
- Concession-only buildings.
- Purely decorative installations (without prior Council approval).
- Facilities not available for public use.
- Dredging, water impoundments, or dams
- Golf courses,
- Indoor recreational facilities.
- Acquisition of land already in public recreational use.
- Legal fees.
- Memberships.

- Agency insurance premiums
- Fund-raising,
- Paying off bad debt, paying interest on loans, or providing contingency funds.
- Paying lobbyists or political contributions.
- Entertainment or gifts.
- Maintenance equipment.
- Nonpermanent infrastructure.
- Any expenditure that occurs outside of the activity period as outlined in the Grant Agreement.

Interest Earnings Funded Projects:

Eligible Expenses

Include, but are not limited to:

- Program materials and supplies.
- Pre-design, design, engineering, and construction.
- Wetland Banking Credits (when necessary, as part of project development)
- Contracted program services and instructors.
- Land acquisition, including permanent easements and long-term lease agreements.
 - Acquisition purchase price may not exceed 110% of appraised value
- Equipment rentals.
- Equipment for programming use.
- Advertising and promotion of program offerings.
- User transportation to and from recreation facilities.
- Translation and interpretation services.
- Agency staff time directly related to and necessary to achieve the outcomes of the grant.
- Special events directly related to and necessary to achieve the outcomes of the grant.
- Outreach and engagement community participation expenses that may include:
 - Stipends, child-care, and/or refreshments
 - Must be directly related to and necessary to achieve the outcomes of the grant.
 - Not exceeding limits approved by the Council and in amounts consistently and rationally applied
- Staff Training.
- Hiring Staff.

Ineligible Expenses

Include, but are not limited to:

- Funding for programming efforts that have an established, dedicated, traditional funding source.
- General operating expenses and general administration or similar expenses (unless included in a Council approved billable rate for Agency staff time billed directly to the grant).
- Software and Agency property such as computers.
- Construction of ball fields, rinks, or soccer fields.
- Concession-only buildings.
- Purely decorative installations (without prior Council approval).
- Facilities not available for public use.
- Dredging, water impoundments, and dams.

- Golf courses.
- Indoor recreational facilities.
- Acquisition of land already in public recreational use.
- Legal fees not related to acquisition.
- Memberships.
- Agency insurance premiums.
- Fund-raising.
- Paying off bad debt, paying interest on principal, or reserving for contingency funds.
- Payment to lobbyists or political contributions.
- Food and/or refreshments not directly related to and necessary for outreach/public engagement and not in excess of amounts that are rationally allocated and consistently applied based on established Agency policy or defaulting to Council Food and Refreshment Procedure.
- Entertainment not directly related to and necessary for outreach/public engagement.
- Gifts of any kind that are not directly related to and necessary to accomplish approved programmatic outcomes
- Any expenditure that occurs outside of the activity period as outlined in the grant agreement.

Match

Local match is encouraged but not required for this program. If local match is described in the application, documentation of support for match must be included with application materials. For example, a signed letter of support from the Agency's governing body.

Procedures

- Council Parks Planner initiates a new Notice of Funding Availability and communicates detailed timelines and requirements to the Agencies.
- Agencies submit applications in WebGrants during the open application period.
- Council Staff review the applications for completeness and compliance with eligibility requirements.
- Equity Grant Program Review Committee review, score, and select applications to recommend for funding
- Council approves projects to be funded.

Amendments

Types of amendments allowed:

- Extension of grant term (up to 1 additional year).

Administrative budget adjustments:

- Shifts between budget line items exceeding 10% will be reviewed for approval on a case-by-case basis and may require a formal amendment.
 - Shifting of budget lines between Council bonds and interest earnings will not be allowed
 - Shifts in budget lines that would result in a change to grant deliverables or project scope will not be allowed

Closeout Reports

To close out an Equity Program grant, Agencies must submit all necessary documentation, along with their final reimbursement claim. The Council must receive:

- Complete Certified Closeout Form
- Photo demonstrating grant-funded activities
- Equity Outcomes Report

Unspent Funds

Any grant funds remaining upon completion of grant deliverables or at the end of the grant term will be relinquished to the fund source.

Operation and Maintenance (O&M) Program

Statutory Authority and History

Since 1985, the State of Minnesota has appropriated money under [Minnesota Statutes, section 473.351](#) that the Council disburses to the Agencies to pay for a portion of the cost of providing for the operation and maintenance of waters, lands, and facilities that are part of the Regional Parks and Trails System.

Fund Source

The funds for the Operation and Maintenance Program are appropriated from two sources:

- State appropriations from the General Fund, [Minnesota Statutes, section 473.351](#).
- "Lottery in lieu of sales tax," [Minnesota Statutes, section 297A.94\(h\)\(3\)](#).

Agency Shares and Allocation of Funding

The Council distributes all Operation and Maintenance funding to the Agencies according to the formula established in [Minnesota Statutes, section 473.351](#):

- 40% based on each Agency's proportion of total regional system visits, as estimated in the Council's annual use estimates.
- 40% based on each Agency's proportion of total regional system operation and maintenance expenditures in the previous calendar year.
- 20% based on each Agency's proportion of total regional system land acreage, with (a) park reserve resource management land divided by four and (b) excluding the acreage under any facilities the Council considers inconsistent with recreation activities and facilities, including enterprise facilities (Strategy 1 of the [2050 Regional Parks Policy Plan](#)).

Program Parameters

Consistent with [Minnesota Statutes, section 473.351](#) and the [2050 Regional Parks Policy Plan](#), all grants from the Operation and Maintenance Program must be used for reimbursement of Agency expenditures that:

- Are consistent with the [2050 Regional Parks Policy Plan](#).
- Are within the boundaries of the Regional Parks and Trails System
- Are for the operation and maintenance of waters, lands, and facilities that are a part of the metropolitan area Regional Park and Open Space System, including but not limited to the provision of fire, police, forestry, maintenance, rehabilitation expenses as part of routine care, and the allocation of the administrative overhead costs of the Regional Park and Open Space System.

Eligible and Ineligible Expenses

Agencies must present all documentation of expenses in a digital format. Output from the Agency's official accounting system is acceptable but additional information may be requested. Expenses cannot be associated with activities or programming that is inconsistent with Recreation Activities and Facilities—Strategy 1 of the [2050 Regional Parks Policy Plan](#).

Eligible Expenses

Expenses are eligible if they are:

- Booked as an operating expense in the Agency's official accounting system and are not included on the list of ineligible expenses, below.
- Related to established units of the Regional Parks and Trails System.

Ineligible Expenses

Ineligible expenses include but are not limited to:

- Unsubstantiated or inadequately documented expenses.
 - The Council will not accept estimates.
 - The Council will not accept ad hoc files as primary documentation (although such files can be useful in conjunction with directly exported data to illustrate how the Agency has aggregated its expenses).
- Expenses for any project activities paid for by a Council grant except to the extent that the grant-eligible expenses can be adequately separated.
- Items with expenses that exceed the documented capital asset threshold,
- Expenses booked as capital at any point in the Agency's accounting system. (For example, an Agency may not purchase a vehicle, book it as a capital expense, and then claim pro-rated usage costs as an expense.)
- Activities or programming inconsistent with the [2050 Regional Parks Policy Plan](#).
 - Expenses incurred for the benefit of Agency's enterprise operation. Enterprise facilities are facilities that are expected to generate sufficient revenues to cover their own expenses.
 - Expenses associated with golf courses, except prorated expenses for cross-country skiing.
 - Expenses associated with organized athletic fields and associated equipment, administration, or staffing.
- Expenses associated with parks or trails not within the Regional Park and Trail System or any areas outside the boundaries of a Council-approved long-range plan.
- The value of gift cards. (The cards themselves are eligible.)
- Transfers out of operating funds.
- Cost of goods sold.

- Depreciation.
- Expenses for settlements, judgments, or penalties.
- Lobbying expenses.
- Joint Powers Agreements. Although the Council encourages joint-powers agreements (JPA) among Agencies, expenses may be claimed only by one of the JPA parties. In other words, if one Agency claims an expense incurred in accordance with a JPA, any other Agency that is a party to the JPA may not claim that same expense.

Match

There is no formal match required for this program, although the Council acknowledges that the available program funding covers only a portion of the Agencies' total operation and maintenance expenses.

Procedures

Pre-Appropriation

Council staff supplies reporting forms, instructions, and due dates for acreage specifications, and records an Agency's expenses each year. The Agency returns the completed forms and documentation. Specific requirements include:

- Salaries and benefits: An Agency may submit subtotaled salary and benefits expenses. However, the Council may request a more detailed report directly run from the official accounting system to substantiate expenses.
- When directed, an Agency must clearly detail the full accounting string in the O&M form. The description on the O&M form must match the description found in the documentation.
- If an Agency prorates any expenses to exclude nonregional expenditures, it must provide the basis for allocation on the reporting form. If the allocation basis is complex, the Agency may need to submit an additional narrative.
- If an Agency prorates any expenses, it must consistently apply that rate to all similar categories.
- An Agency must aggregate expenses for the regional portion of the recreation and open space. The Agency may not present expenses on a park-by-park basis.

Council staff then review the acreage and expense forms and documentation. The Council reserves the right to request further documentation, as needed.

Post-Appropriation

- The Council finalizes Agency shares based on the appropriation approved by Legislature and signed by Governor.
- Council Parks Financial Analyst presents a business item to MPOSC, and then forwards an action item to the Community Development Committee and the Council for approval by July 15 of each year, as required by [Minnesota Statutes, section 473.351](#). Accompanying the action item is a report that presents actual operating expenditures made by the Agencies and the annual operation and maintenance funding distribution amounts by agency.
- Operation and maintenance funds are distributed to Agencies via automated monthly payments beginning on August 1 with the General Fund portion and the first monthly installment of the lottery in lieu funding, based on each Agency's calculated share. Subsequent payments issued after receipt of monthly lottery in lieu revenue.

Amendments

There are no amendment options for this program.

Closeout Reports

There are no closeout activities required for this program.

Unspent Funds

This program funds reimbursement for only a portion of the total operation and maintenance expenses of each Agency; therefore, there are no unspent funds.

Legislatively Directed Pass-Through Grants

Statutory Authority and History

The Legislature may require the Council to administer direct appropriations made to local government jurisdictions, including the Regional Parks Agencies, counties, cities, and townships. In these cases, the Council has the responsibility to abide by state statutes, session law, and regulatory requirements while serving as the fiscal agent and grantor. The Council distributes these funds to the grantees.

Fund Source

In most cases, legislatively directed pass-through grants are funded from state General Obligation Bonds. There may be situations where grant funds are appropriated from an alternative fund source.

Allocation of Funding

Agency shares do not apply to this program. The Legislature may direct funds to one of the Agencies or to another entity, such as a city or township, within the Council's geographic jurisdiction.

Program Parameters

Legislatively directed pass-through grants must be consistent with the project description as outlined in the appropriation.

Eligible and Ineligible Expenses

The Legislature specifically identifies the deliverables for each legislatively directed pass-through grant, and therefore the eligible expenses are defined by the appropriation language. When funded from state General Obligation Bonds, projects are required to observe all restrictions associated with that fund source, including those governing capital expenditures.

Match

A match may or may not be required. If so, it will be defined in the specific appropriation language.

Procedures

Grant recipients will be notified upon conclusion of the legislative session and appropriation of pass-through funds. The Council's Grant Administrator will draft and issue the grant agreements to the grantees. Additional requirements apply to legislatively directed pass-through grants that are funded with state General Obligation Bonds.

Additional MMB requirements for General Fund and State Bond funded grants:

- Predesign Review by Department of Administration is required for capital projects unless exempt in [Minnesota Statutes, section 16B.335](#).
 - Capital projects exempt from the requirements include demolition or decommissioning of state assets, hazardous material projects, utility infrastructure projects, environmental testing, parking lots, parking structures, exterior lighting, fencing, storage facilities not consisting primarily of offices or heated work areas, roads, bridges, trails, pathways, campgrounds, dams, floodwater retention systems, water access sites, harbors, sewer separation projects, water and wastewater facilities, a local government project with a construction cost of less than \$1,500,000, or any other capital project with a construction cost of less than \$750,000.
 - A predesign is not required for capital projects for park buildings owned by a local government unit in the metropolitan area defined in [section 473.121, subdivision 2](#).
- Capital projects funded in whole or in part by state bonds or general fund must demonstrate to MMB a full-funding commitment to the project(s). Grantees must provide the following:
 - Board (governing body) approval of the project, demonstrating its commitment to complete.
 - A capital budget line item in the capital improvement program showing the identical funding amount committed to complete the project.
 - Grantees must be able to document they either have the funds in hand or have a satisfactory commitment to receive the additional funds necessary to complete the stated project scope.
 - Grant agreement:
 - Attachment III – Source and Use of Funds
 - Attachment IV – Project Completion Schedule
- Council Grant Administrators provide these grantee documents to MMB for its approval. Occasionally, additional information may be requested. A recorded Funding Declaration on grant project property is required before the grantee is eligible for reimbursement.
- The grantee must post a Recorded Funding Declaration on grant project property benefitting from the grant. This is required before the grantee is eligible for reimbursement.
- If a grantee is granted a Declaration Waiver from MMB a Declaration Waiver Certification Letter (included in approval packet from MMB) must be provided before the grantee is eligible for reimbursement.
- Agencies with capital projects funded by state bonds are required to verify compliance with equal pay and workforce certificate requirements or notify Council staff of an exemption based on contract size.
 - Equal Pay Certificate requirements apply to all contracts entered by cities, counties, townships, and other political subdivisions for contracts exceeding \$1 million. If an Agency's project is exempt from these requirements based on contract size, the Agency will be required to notify Council staff to fulfill the verification requirement.
 - Workforce Certificate requirements apply to all contracts for goods and services entered by cities, counties, townships, and political subdivisions for contracts exceeding \$250,000. If an Agency's project is exempt from these requirements based on contract size the Agency will be required to notify Council staff to fulfill the reporting requirement.

The project then moves into the post-award phase, which begins after the Council has approved funding for the project by including it in the Council's Annual Capital Program and Council Grant Administrator routes the grant agreement for execution.

Amendments

Types of amendments allowed:

- Extension of grant term

Closeout Reports

To close out a Legislatively directed pass-through grant grantees must submit all necessary documentation, along with their final reimbursement claim. The Council must receive:

- Complete Certified Closeout Form.
- Recorded Declaration (if not already on file)
- Photo demonstrating grant-funded activities.
- State of Minnesota Jobs Report (for all grants awarded prior to State Fiscal Year 2021).
- Small Disadvantaged Business Report (for all grants awarded prior to State Fiscal Year 2021).

For legislatively directed pass-through grants see grant agreement for information on any additional required closeout documentation.

Unspent Funds

Any grant funds remaining upon completion of grant deliverables will be relinquished to the fund source.

The Metropolitan Council is the regional planning organization for the seven-county Twin Cities area. The Council operates the regional bus and rail system, collects, and treats wastewater, coordinates regional water resources, plans, and helps fund regional parks, and administers federal funds that provide housing opportunities for low- and moderate-income individuals and families. The 17-member Council board is appointed by and serves at the pleasure of the governor.
