In December 2013, the Southwest LRT (Green Line Extension) Project began three studies to clarify important issues that affect the proposed light rail line between Eden Prairie and downtown Minneapolis:

- The location of freight rail service in the Kenilworth Corridor
- Potential impacts of LRT construction on Cedar Lake and Lake of the Isles
- Landscaping and greenscaping in the Kenilworth area

Draft results of these studies are expected in early 2014, when there will be more opportunities for public comment.

These meetings will provide opportunities to learn about these studies, talk to project staff and discuss the study scopes with invited elected officials.
