Council Member Cummings asked if there were more projects this year with units set aside for residents experiencing homelessness. Ms. Gary responded there are more projects this year with units set aside for residents experiencing homelessness.

Council Members Johnson asked about the geographic representation of projects getting awarded. The awards are based on scores developed through the Council approved scoring criteria. Ms. Gary and Chair Emerson explained the conscious of the need to have geographic representation and are working to ensure balance as much as possible with the new scoring criteria. And will also be taking a more active role in reaching out to communities that have not applied or received awards in the recent past.

Council Member Chambliss asked about the origin the rule that limits 40% of available funds to projects located in Minneapolis and Saint Paul. Community Development Director Lisa Barajas noted that this rule originates in statute, specific only to the Tax Base Revitalization Account, but the Council has applied that limit to all other LCA accounts since the adoption of the Livable Communities Act. Council Member Wulff agreed with Director Barajas and offered additional explanation on the need to balance the fund distribution geographically and noted that if there are not enough eligible suburban projects to award the Council can choose to exceed the 40% limit to the central cities.

INFORMATION

1. Land Use Advisory Committee Report – Council Member Wendy Wulff presented the information item to the Community Development Committee.

The Community Development Committee’s 2020 work plan includes periodic reports from the Land Use Advisory Committee (LUAC). LUAC mainly gives advice and assistance on metropolitan land use, comprehensive planning, and other planning as requested by the Metropolitan Council. LUAC includes Council Member Wulff as Chair and 17 members, at least half of whom must be locally elected officials.

On May 21, the Committee discussed Metro Climate Stats, the Regional Parks System Additions Project, and the Typology of Change in Suburban Communities. At the July 16 meeting, members gave feedback and direction on a proposal for integrating equity into discussions at Committee meetings and discussed Livable Communities Act programs. On September 17, the Committee provided input on the Livable Communities Demonstration Account - Transit Oriented Development (LCDA-TOD) Program, Local Housing Incentive Account (LHIA), and Housing Action Plans for Livable Communities Act participation 2021-2030. The Committee also commented on a Water Supply Planning Report to the legislature that includes topics relevant for ongoing collaboration between LUAC and the Metropolitan Area Water Supply Advisory Committee. The March 19 meeting was cancelled because of COVID-19.

The Land Use Advisory Committee’s May 21, 2020 agenda included:

- Metro Climate Stats on creating tools for climate change mitigation;
- Regional Parks System Additions Project; and
- Typology of Change in Suburban Communities.

Topics covered on July 16, 2020 agenda included:

- Applying an Equity Approach; and
- Livable Communities Act Program Overview.

The Committee’s September 17, 2020 agenda included:

- Livable Communities Demonstration Account - Transit Oriented Development (LCDA-TOD) Program;
- Local Housing Incentive Account (LHIA);
- Housing Action Plans for Livable Communities Act Participation 2021-2030; and
2. Payment Standards for Metro HRA Rent Assistance Programs – HRA Director Terri Smith and Research Manager Joel Huting presented the information item to the Community Development Committee. The Metropolitan Council must annually review and adopt Payment Standards (rent limits) to be used in the administration of the Housing Choice Voucher and other rent assistance programs. Payment standards should be set at amounts that ensure voucher holders can be successful in placing their voucher in a neighborhood of their choice. The purpose of this information item was to share data that is available today, discuss the factors influencing payments standards, and gather feedback from Committee members prior to an action item at an upcoming Community Development Committee meeting to adopt payment standards for 2021.

The Council adopted Small Area Fair Market Rents (SAFMRs) for implementation in 2020. SAFMRs are rent limits adopted at the zip code level instead of for an entire metropolitan area. This allows for higher rent limits in higher rent areas of the region and lower rent limits in lower rent areas of the region. The goal of SAFMRs is to improve housing choice in all neighborhoods, increase voucher placement success and provide for budget neutral potential in future years.

Although the Council adopted SAFMRs in December 2019, the Metro HRA did not get approval from the U.S. Department of Housing and Urban Development until January 23, 2020. Council staff developed an online tool in February 2020 and planned engagement meetings with voucher holders in March 2020. When COVID-19 hit in March 2020, it required a refocus on pandemic planning. As a result, SAFMRs were not implemented until July 2020, limiting the data available to analyze the impact of SAFMRs. HUD issued 2021 SAFMRs in August 2020. Staff have been digesting the new SAFMRs and analyzing changes in the regional rental market.
